<b>Job Title</b>	Licensed Clinical Psychologist
<b>Company Name</b>	Center for Cognitive Behavioral Therapy and Mindfulness
<b>Location</b>	Remote
<b>Salary Range</b>	\$175/hr - \$210/hr

## Job Description/Overview

The Center for Cognitive Behavioral Therapy and Mindfulness, [cbtmindful.com](http://cbtmindful.com), is an exciting and fast-growing psychotherapy private practice committed to providing the highest quality evidence-based teletherapy. We are a team of 19 doctoral clinicians. Our providers are located across the country and include professors, authors of gold-standard books in the field, and researchers who have conducted vital clinical studies. We have been featured as experts in The New York Times, Harper's Bazaar, Huff Post, Parade, Real Simple, Verywell Mind, Psych Central, Mic, Prevention, and other publications. We are able to serve over 40 states and the District of Columbia.

We are currently seeking doctoral-level (PhD or PsyD) licensed clinical psychologists authorized through PSYPACT (or eligible for and willing to obtain PSYPACT authorization; check here to see if you are in a participating state) for remote independent contractor positions. We provide generous rates for our independent contractors that exceed those of traditional private practices.

We foster a team atmosphere with a weekly drop-in case conference, an active team Slack, and ad hoc consultation. We provide all the administrative support so that our clinicians can focus solely on clinical work. Specifically, we provide clients, intake coordination and intake scheduling, advertising and marketing, accounting, billing, software infrastructure, website, phone service, snail mail and email.

We are seeking clinicians who are:

- Passionate about providing the best evidence-based care to help clients achieve their goals and improve their lives
- Experts in evidence-based practices such as Beckian CBT, Acceptance and Commitment Therapy, Dialectical Behavioral Therapy, exposure therapies (Exposure and Response Prevention and exposure therapy for phobias, anxiety, and panic), trauma-focused therapies (including Prolonged Exposure Therapy and Cognitive Processing Therapy), and other EPBs
- Methodical diagnosticians
- Exceptionally skilled at building and maintaining rapport while providing structured courses of therapy
- Thoughtful about case conceptualization, treatment planning, and tailoring evidence-based practices to best meet clients' needs

Details:

- Teletherapy-only practice (all sessions provided via HIPAA-compliant video calls)
- Contractors may set their own caseloads above a minimum number of clients
- Independent contractor position is a remote and non-benefited position

Advantages of our practice:

- Generous rates
- Work remotely
- Flexible schedule and ability to set your own hours
- Client referrals and intake coordination
- Group and individual clinical consultations
- Easy to use, HIPAA-compliant electronic health record software
- Supportive and caring work environment

Pay:

Independent contractors may determine their own rates. We offer a 70/30 split model where independent contractors take home \$175 to \$210 per session at our standard rates. Contractors can set their own caseloads and hours and the position can be held in conjunction with other employment.

### Qualifications

PhD or PsyD degree from an APA-accredited university and completion of an APA-accredited doctoral internship
Licensure as a psychologist
Authorization to provide multistate teletherapy through PSYPACT or eligibility and willingness to apply for PSYPACT authorization. Authorization through PSYPACT plus additional licensure in NY is an asset but not required to apply.
Expertise in providing evidence-based therapies (detailed above)
Experience using mindfulness in treatment

### Preferred Skills

Ability to provide evidence-based couples therapy such as Integrative Behavioral Couple Therapy
---

### Application Information

Apply at [cbtmindful.com/apply-now](http://cbtmindful.com/apply-now) or send a cover letter, CV, and contact information for three references to [info@cbtmindful.com](mailto:info@cbtmindful.com).
