

NH Girls Technology Day

About Us...

Girls Technology Day was started in 2012 to engage young women in the STEM related fields that support our everyday lives and our futures. According to the U. S. Bureau of Labor Statistics, women comprise 48% of the workforce, but less than 25% of the workforce in STEM related fields. In the past three years, more than 2000 young women in NH's 9th and 10th grades registered for NH-GTD events. Currently in our sixth year, the event has expanded from one original site to four locations with a fifth location ready to join us in 2019!

Become part of the solution!

Volunteer, mentor, and support young women in the STEM fields. NH-GTD is always looking to expand our network of partners who inspire the next generation of women in STEM careers. How can you help?

- Participate in our annual events as a site volunteer, workshop presenter, vendor, or mentor.
- Sponsor the event with financial or material support.
- Encourage your local high school to attend NH-GTD events and promote the event to your colleagues and in your community.

“Remember, all girls need is some guidance and support so they can gain confidence, and confidence is key.”

-Violet Villanueva, 2015 NHGTD attendee

Benefits of Sponsorship

Platinum \$1000+	Gold \$500+	Silver \$250 to \$499	Prize/Merchandise	Scholarship Support
Platinum level sponsors receive the benefits outlined in the gold and silver categories. Additionally, they are provided with free industry space in the vendor fairs at UNH and NHTI events. They receive preferential logo placement on the GTD-NH.org web site. At this level of sponsorship the sponsor will be recognized in the opening ceremony verbally and in the visual presentation that runs during the opening session.	Golden sponsors will be recognized in our print and social media efforts. They will receive mention at the event as well.	Silver sponsors will have logo appearances on our event programs. They will receive mention at our event and on our Facebook page.	We will be providing students and chaperones with GTD bags customized to each group. Our goal is to fill these bags with materials that will support each in continuing to explore STEM related career and postsecondary pathways. Sponsors may provide technology, gift cards, STEM related print materials, school supplies, or other appropriate items that support the GTD mission.	Scholarships to STEM related camps and courses are also welcome.

Thank you for considering sponsorship of NH Girls Technology Day events.

Sponsorships can be made via credit card at:

<https://nh-gtd.org/>

Sponsorship checks can be made out and sent to:

NH High Technology Council
 ATTN: Girls Technology Day
 36 Lowell Street, 2nd Floor
 Manchester, NH 03101
