### KEYNOTE SPEAKER: Alison LaBore, Systems Analyst

Allison Labore is a Systems Analyst at Fidelity Investments, a multinational financial corporation based in Boston, MA. She is involved in the design, implementation and maintenance of complex trading and portfolio software systems. She works with the development team to coordinate the current projects and with the business to plan for future enhancements. Her work involves a lot of problem solving to investigate defects to determine root causes and to translate business requirements into system specifications.

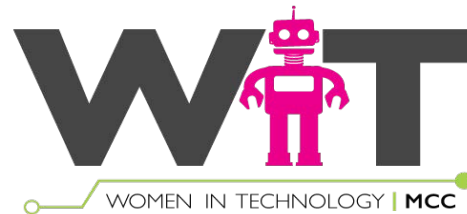

Allison is a graduate from the University of New Hampshire, with a BS in Applied Mathematics with the Economics option and a minor in Information Technology. While there, she completed two internships at Measured Progress and Fidelity Investments. Apart from academics, she participated in the Math Honor Society, the Irish Step Dancing club and worked in the Office of Student Involvement and Leadership.

She currently lives in Manchester, NH where she enjoys playing volleyball and having game nights with her friends. She loves the outdoors and tries to travel as much as she can.
