Traditional Cremation, **Burial at Sea** Funeral Service is the disposal of human remains in the ocean, normally from a ship or boat. It is regularly performed by private citizens in many countries. Burial-At-Sea are conducted at many different locations and with many different customs. Usually, either the captain of the ship or a religious representative or family member performs the ceremony. With many options to choose from, we can provide an immediate cremation without a public service; a visitation, viewing or wake; a funeral service at our Chapel, Church or private Home followed by Burial at Sea. You can choose whether you'd like a public or private service or a combination. It is entirely up to you how you wish to pay your final respects.
