Preserving History

Making History

Reflecting on glass blowing and the heritage of Manheim Borough, Lancaster County, PA, the two are quite intertwined within the history books. Notable, the borough founder Henry William Stiegel operated his foundry on South Charlotte Street pictured here from 1763 -1774; 11 years. Our current 501 (c)(3) was founded 1976; now 43 years. Revived activity in preparation of Manheim 250 we poured the concrete floor at our current humble studio September 2009.

Now celebrating a continuous run of 10 years!

Stiegel Glassworks 1976
Response

Date: _____

Yes, we appreciate the volunteer efforts and support art glass and historic preservation to the benefit of Manheim heritage, culture and vitality brought through Stiegel Glassworks 1976.
