Medical - Dietary Form

Little Blue Playhouse Childcare

Childcare

Child's Name: _____

Immunization History Attached

Health history:

Allergies:

Current medications being taken:

Special dietary requirements:

Other special needs:

Authorization: I understand that any medications, prescriptions, or over-the-counter medications (including sunscreen, ointments, or diaper rash powders) can only be administered by the provider if a parent (or guardian) gives written authorization. Medication should be brought to the childcare in its original packaging, clearly labeled with the child's name and prescribed dosage. If the medication is non-prescribed, the provider may only administer up to the manufacturer's recommended dosage. All medications given to the child by the provider will be noted on a daily basis. A first dose of any product or medication new to a child should be administered at home with parental monitoring in case of allergic reaction.

Little Blue Playhouse Childcare has my permission to obtain emergency or dental treatment for my child (including administration of anesthesia if a physician advises surgery) if I cannot be reached. This is to ensure that my child receives the necessary emergency treatment he/she needs. I also give permission for my child to be transported for such emergency treatment. I understand that I am responsible for all costs involved in emergency medical treatment, including emergency transportation, if required.
