

Insurance Agent & Broker Risk Management

Loss prevention counselling included in your policy

Your Insurance Agent Errors and Omissions plan includes easy access to authorities on professional responsibility and loss prevention.

Consult confidentially with a senior risk management attorney on thorny issues that can—*but don't have to*—turn into bigger problems and/or costly claims.

We provide advice to address:

- ⌚ Issues raised by holding yourself out as a specialist
- ⌚ Dealing with the threat of a potential claim
- ⌚ Failure to identify client exposure
- ⌚ Ethically and effectively communicating a potential error to a client
- ⌚ Structuring your office's policies, procedures and administration before problems arise
