

At Wiggles and Giggles Oldbury we have freshly prepared, nutritious home-cooked meals, prepared on-site by our qualified nursery chef. Our menus are planned to provide a balanced and varied diet, supporting children's growth, development and overall well-being.

We recognise that children have individual dietary needs and take particular care when managing allergies and intolerances. Appropriate information is obtained from parents and carers, and dietary requirements are clearly communicated to staff. We follow robust procedures to minimise the risk of cross-contamination and ensure that children's individual needs are carefully considered when preparing and serving food.

Mealtimes provide opportunities for children to develop healthy eating habits, independence and positive social experiences in a safe and welcoming environment.
