Bed Sheets Pillows & Covers

Towels & Hand Towels

Towels are an important part of your hospital linen. We provide a wide range of white and coloured towels in different sizes, weaves and quality to suit your requirement.

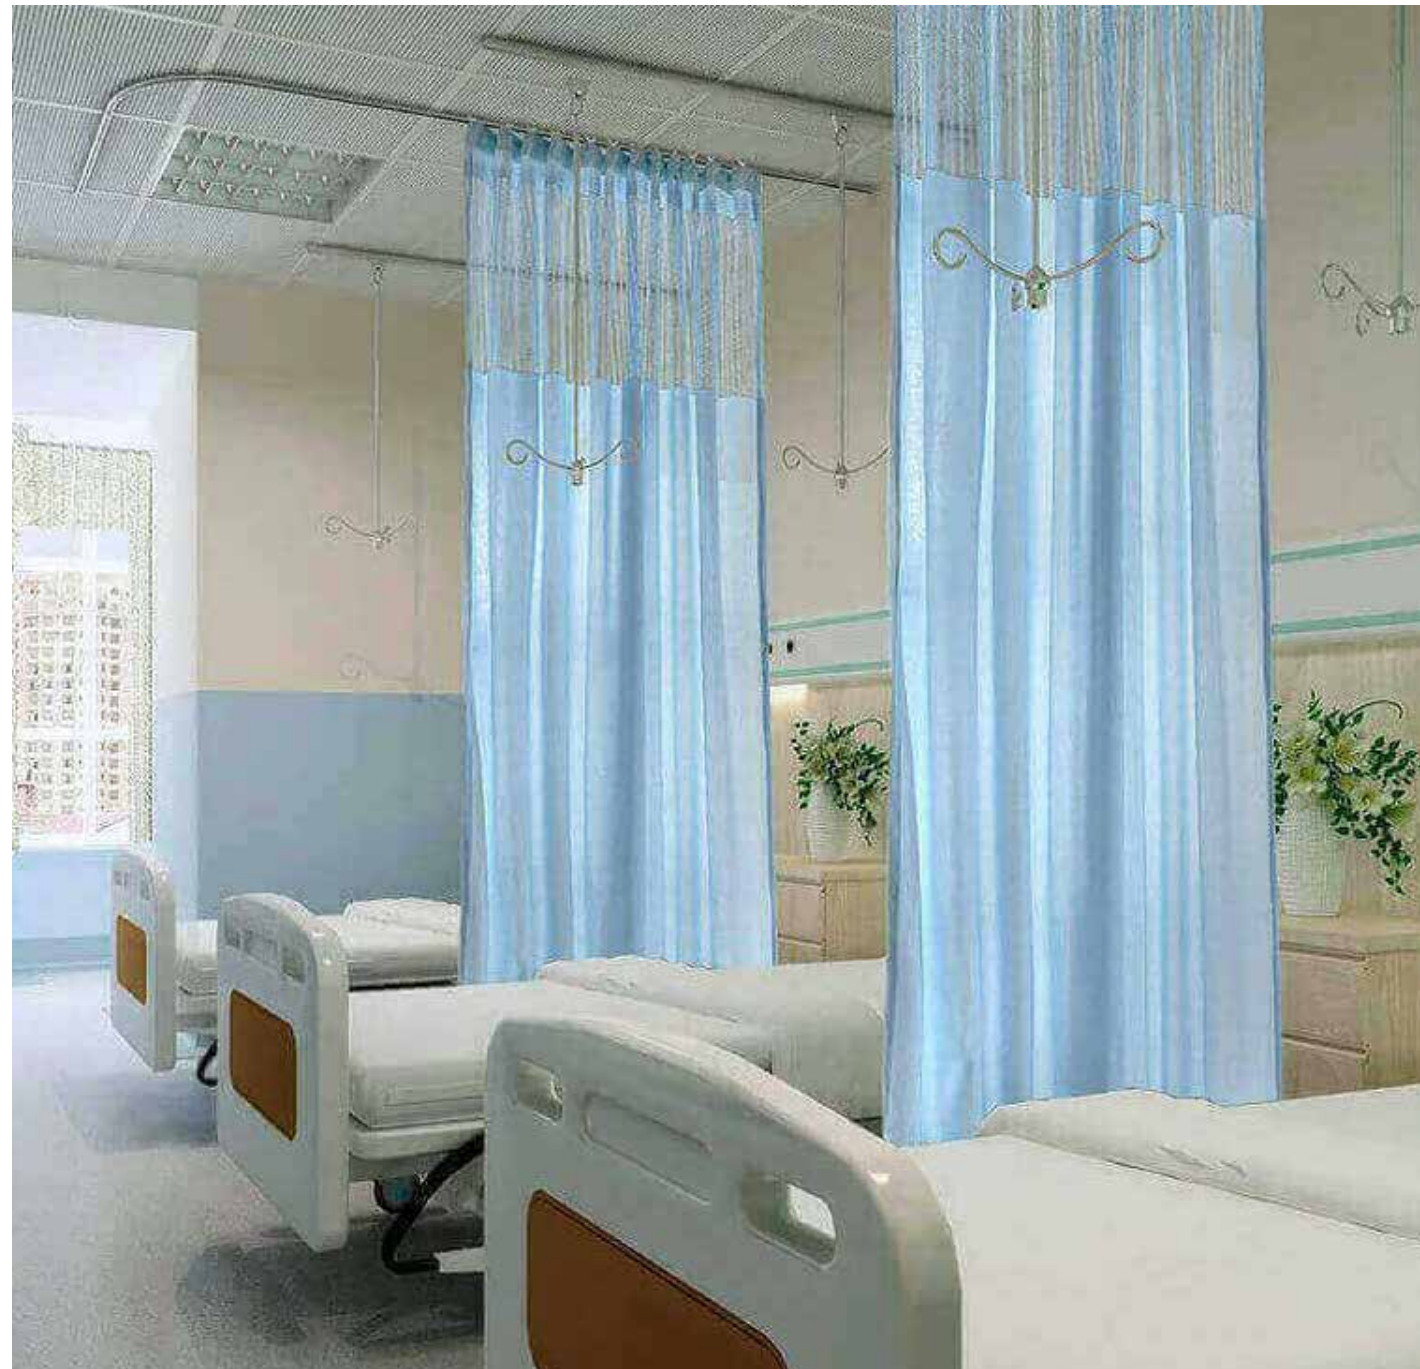

Blankets

The right healthcare blanket provides both physical and emotional comfort for patients. Being in a hospital is a stressful experience for most. That starts with the very basics and one item that they are likely to have the most contact with are blankets. A warm, soft, cozy blanket does more than keep someone warm. It provides a sense of well-being and therefore goes a long way in healing.

Anti Microbial & Privacy Curtains

Anti Microbial and Privacy Curtains are essential items that are needed in every hospital and clinic. Also known as ICU curtains, these provide limited privacy that is often required while examining patients or to provide privacy to your medical staff. We supply a range of curtains and undertake turnkey projects that involve fitment and installation of curtain-tracks.

OT Linen

OT is the virtual heart of every hospital and the most vital cog in the wheel. We have been supplying reusable linen for OT and ICU for many years. Our products are made to last over multiple wash-cycles.

We provide OT Gown, Scrub Suits, Masks, Caps and other accompanying linen. These are designed to be simple and easy to launder, cheap to replace if damaged or stained irreparably.

OT Linen

Apparel for Doctors & Patients

Importance of wearing professional medical uniforms cannot be understated. Apart from making your doctors and staff feel better and comfortable, it serves two other vital purposes. It creates a professional environment and instills confidence in the mind of a patient that he or she is in capable hands.

It's also possible to embed your corporate branding by embroidering or screen printing your logo on the dress.
