Old Business

Discussion was held on the Flood Map Adoption Documentation. We have 90 days (starting date May 7th) to get this completed and in place. We made a few changes to the 2014 Flood Map Documentation that was adopted in 2014 by the Township (changes involved dates and signatures) and a motion was made to adopt the FEMA Flood Map Documentation with the changes.

Motion made by: Cindy Vansloten

Cindy will ask Chris Chartrand (office administrator) to type up the new documentation.

We worked on coming up with an ordinance for Solar Energy per Act 233. We did get a good start on it and will hopefully have a draft ordinance for the Board to look over soon.

New Business

Food Truck Ordinance: tabled until next meeting. Cindy will check with the Township Board to see if we can get approval for an extra meeting on Wednesday, May 21st to discuss the

Food Truck Ordinance. We don't want to wait until our June meeting as we need the ordinance in place before the Township gets requests for food trucks in our Township. Kathy will scan a sample of a food truck ordinance so all planning commission members can look at it before our next meeting.
