

Hey Everyone!!

Get Ready for the 2023 SGGFC SNAPPER & GUMMY CHALLENGE

It's now time to download your Track My Fish for Tournaments app for the event!!

If you have the TMF app from previous year we highly recommend that you log out and back in to refresh the app as there have been some updates.

Also check to make sure that your mobile phone has the latest software and you have the latest app version as well.

HOT TIP : have a look at the scorecard function in the app this lets you know the status of your submissions for your yourself, the how to guide lets you know what each status means too, especially if you're fishing in an area with no or low mobile reception.

You can find this EVENT INFO > SCORECARD

Put in as many trial photos into the event as you to get yourself familiar with using it, all data will be deleted prior to the event.

Also, Android Users : due to a change coming, some models may only be able to take the photo live in the app, please test this function & have save to photos turned on as well.

NOTE – Please read the how to guide attached above as moving around the app has changed in its layout from previous years.

If you get any pop up messages saying incorrect password/username or screenname already exists this means you have a login already, please use this forget my password link in the app or below or email us to get a manual reset completed.

FORGOT MY PASSWORD LINK > <https://tournaments.trackmy.fish/password/reset>

If you have any questions about using the app for your catches please make contact with me via phone or email.
