

Icebreaker Spray Packs

- The unique internal design of the motor reduce ice formation and prevent accumulation.
- Self-adjusting packings and a thick hard chrome plated stainless steel fluid section ensures durability regardless of the material used.
- The large material filter combined with the recirculation valve creates maximum performance in cleaning and flushing.
- Various pump sizes and configurations available to fit any application's need.

TOPFINISH DD10

- Typical savings can be in the thousands of dollars for reduced solvent usage and lower maintenance costs.
- Change of diaphragm takes less than 15 minutes.
- Perfectly suited for supplying material to manual or automatic airspray guns and 2-component systems.
- Fast flush for easy clean up.
- Multiple mounting options available for setups in a spray pack (wall, cart, hopper, pail, drum etc.).

Aquacoat

- Rapid amortization due to material savings of up to 50%.
- Up to 20% shorter coating times due to the electrostatic application of water-based paints or release agents.
- Ultra high atomization with uniform particle distribution provides high coating quality.
- Different types of pumps are available depending on the application.

GM 4700 AC

- The GM 4700 AC is an air assisted airless (aircoat) spray gun providing fine, soft atomization and HVLP transfer efficiency.
- Tool free removable filter for ease of access on inspection and repairs.
- Reversible tip for easy clog removal.
- 50% more filtration with the inline cage style filter.
- Swivel fittings on the air and fluid inlet for enhanced maneuverability when spraying.

GM 5000 EA/C FM Spray Packs

- Material and air inlet swivels for extended maneuverability.
- Suitable for the majority of materials with a paint resistance above 150kΩ.
- Excellent wrap around and very high transfer efficiency.
- Spray packs includes controller, 25' hose set and GM 5000 EA/C FM spray gun.
- Round spray pattern setup available.

Cobra Spray Pack

- Reduced pulsation to ensure a consistent flow of material and a finer finish.
- Reduced solvent consumption: up to 60% savings during flushing procedures.
- Less paint waste.
- Easy and fast color changes.
- Spray pack's available to include 25' hose set, pump and GM 4700 AC.

CP-ZPACK

- Designed for zinc rich and high corrosive materials.
- Includes 1.8 mm delrin insert fluid nozzle/needle, 2.2 mm 17-4PH stainless steel insert fluid nozzle/needle and 2.2 mm delrin insert fluid nozzle/needle set.
- Adjustable needle seal packing.

ZIP 52 Double Diaphragm

- High performance with reduced air consumption; requires no additional lubrication and suffers from no freezing problems.
- Can be configured in multiple ways for all types of applications.

Panther Series

- The Panther series is an ideal option for industrial application finishes.
- The gun body/air cap are PTFE anodized for easy clean up.
- Includes a heavy duty spring to ensure a proper fluid seal.
- Available in conventional and HVLP models with optional carbide tips on specific models.

Pressure Cups and Tanks

- Standard and stainless steel tanks available in various sizes.
 - 2.5 gallon
 - 5 gallon
 - 10 gallon
 - 12.5 gallon
 - 15 gallon

51-202

51-804

51-508

Tomcat / Tomahawk

- The Tomcat/Tomahawk are general purpose conventional air spray guns.
- Rugged and designed for production use, these spray guns are perfect for all coatings thick and thin.

10-500 Gun Cleaning Kit

- 6 Picks on Ring
- 1 Round Lg. Bristle Brush
- 1 Detail Brush
- 1 Gun Brush
- 3 Round Bristle
- 1 Pick
- 5 Small Round Brushes

Accessories

- High flow quick disconnect fittings
- Low pressure and high pressure hoses
- Filters /coalescers
- Desiccant filters
- Cleaning kits
