

**GARY BARR'S 1979 LIL RED EXPRESS**

*The first Little Red Express trucks hit the production line in 1978. At the time, I didn't have the funds for one after getting married and having my first child. Roughly fifteen years later, I seen one in Brandenburg with faded paint and bad wood but the driver wouldn't sell it. Years after that, I was at a Mopar junkyard and there was one there torn apart and painted. I tried buying it from him but he wouldn't price it. A year after that he gave a price of \$5,000 and a dog. In 2006, I had a dog and my first little red. A buddy of mine cut the wood in the bed.*

*I rebuilt the engine. It's taken years for me to get this truck. I've spent years putting time and money into this truck.*

*Gary Barr, Payneville, KY*
