Acknowledgement and Acceptance of Treatment (the fine print...)

I understand and I am informed that, as is with all healthcare treatments, results are not guaranteed and there is no promise to cure. In the therapies practiced at Natural BodyWorks there are some risks to treatment, including, but not limited to, muscle soreness or spasms for short periods of time, dizziness, aggravating and/or temporary increase in symptoms, lack in improvement of symptoms, and on extremely rare occasions; sprains, fractures, disc injuries, strokes, dislocations, bruising, hematomas, and the possibility of a small amount of bleeding (acupuncture or dry needling only).

I do not expect the doctor to be able to anticipate and explain all risks and complications, and I will rely on the doctor to exercise judgment during the course of the procedure which the doctor feels at the time, based upon the facts then known, and is in my best interests. I understand and have been informed that I have the right to and are encouraged to get a second opinion if I have concerns as to the nature of my symptoms and treatment options.
