

Happy New Everything!

It's going to be a big new year. Have you noticed there's something happening here? And what it is may not be exactly clear yet?

The deeper we go into 5D, the more people everywhere are surfacing the physical issues occurring within their 3D bodies, minds, and spirit. While we recommend the QCS to eliminate the problems at the body, mind and spirit levels, Jan is also doing many 1-on-1 appointments at the retreat center the house is meant to be.

She is also currently leading *private unannounced classes*.

To get on the list of a specific class like the 12-Hour, a particular weekend of the Advanced Practitioner Program and so on, please send your request to the office as soon as possible.

Now, let's talk about the **Fire Horse** featured on this mini COACH. Recently Jan listened to a Chinese elder speak on Feng Shui, Astrology, Qi Gong and other skills. She's currently condensing the many pages of notes she took from the talk into roughly two pages to get the info out there.

On February 17th, 2026 the Chinese New Year kicks off with a revolutionary cycle that only happens once every 60 years with the highly

auspicious energies of the *Fire Horse*.

The next three years are composed of specific, once in a lifetime energies of considerable magnitude which are already well under way with initiating big waves of changes across all of our social sectors.

The Chinese art of harmoniously organizing space, *Feng Shui*, suggests a variety of things you can do in your home to navigate the tension of the energies ahead with more gentleness, ease and flow in your life.

If you are interested in this info, [email the office](#) and we'll send Jan's condensed notes once they are ready.

Additionally, right now in all other ancient systems of astrology the stars have quite literally already begun to align in novel territory that is midwifing an utmost opportunity to support you in rapidly transforming your destiny, in changing your fate, your life span and life path, attracting good fortune as well as for clearing karmic and generational trauma. This is exactly what we'll focus on in the next QCS.

Again, this is a RARE opportunity in 2026 to resolve and evolve all of these qualities of being from the ground up, from the body to the spirit and

beyond. If you are grappling with generational challenges, *this is the best time to create new ways of being*—and that's what we're here for.
