GETTING THE JOB DONE, TOGETHER

Dear Companions,

We cannot let past habits or minutia get in the way of excelling in taking care of MOWW business every day, e.g., recruiting. With quality people in our chapters, we will be the most dynamic Veteran Service Organization on the planet. Without the right people, our chapters will wither. We all want to be part of a winning organization that is thriving and expanding. Take the Hill Country Chapter, TX, for example. It was hurting when CAPT Debbie Dombeck and CDR Ralph Lewis, both USCG (Ret), came aboard with enthusiasm and spirit. Now, Hill Country is earning honors. Success in recruiting allows us to achieve our Strategic Goals of outreach, visibility, training and recognition.

Another “must do” MOWW business area is filing online IRS Forms 990-N via the IRS website and submitting MOWW Forms 9 online to the Treasurer General via the MOWW website. Our Treasurer General, LTC George Walker, is always ready to help commanders and treasurers with issues, but it’s up to the chapters to use his advice and recommendations to solve their own problems. Remember, our Treasurer General is just one Companion and we have 96 standard chapters and two at-large chapters, so commanders and treasurers at all levels must become “local” subject matter experts in filing and certifying. It would be a shame to continue spending valuable time and energy digging out of avoidable holes when leaders at every level could proactively take steps to ensure every chapter is ready to file and certify well before they must do so.

Another opportunity area: I just put my CINC Solicitation donation on autopilot! It’s easy, and I recommend you do the same by going to the MOWW website and making a monthly credit card or PayPal allotment (tax deductible) for whatever sum you donate. Payment is made automatically, securely and painlessly. The good news is your donations make the Order’s good work possible, e.g., insurance for National Officers and YLCs, *The Officer Review*® (now bimonthly), Service Academy awards, and many medals and certificates.

Last, the 2018 MOWW National Convention (Columbus, GA) is only a fast six months away. I’m fully registered—already! Now is also the time to book your Marriott Hotel room in the heart of historic downtown and book your travel reservations now to reduce costs. Diane and I already booked our hotel room and it was easy. Don’t miss out on a memorable and productive experience for all Companions. See you there!

WE SHALL REMEMBER

CAPT HARRY H. WEINBERG, SC, USN (RET)
GREATER BOSTON CHAPTER, MA

(L-R): Canadian Naval Attache to France, Captain Yves Germaine, with Companion CAPT Harry H. Weinberg, SC, USN (Ret)

The Greater Boston and Worcester Chapters of our Military Order have long worked with other local organizations that share identical patriotic attitudes. As America observed the 100th anniversary of its entry into World War I (WWI), one of these groups, The Ancient and Honorable Artillery Company of Massachusetts (AHAC), with 14 MOWW

members from the Greater Boston and Worcester Chapters participating, visited several overseas WWI battlefields and cemeteries of the United States and its Allies. Our purpose was to pay homage to the many thousands of servicemen who lost their lives in answer to our country's and the world's call.

As it has done many times in the past, these Companions of MOWW and members of AHAC served as goodwill Ambassadors for the United States, the Commonwealth of Massachusetts, and the City of Boston throughout its 10-day visit to France and Belgium.

The group's first destination was Paris, with a visit to the gravesite of the Marquis de Lafayette, who was an invaluable military colleague and great friend of General George Washington during the United States' Revolutionary War. Lafayette was instrumental in persuading the King of France to aid the Americans with money and troops. Lafayette's love affair with America culminated in a triumphal return visit to the United States in 1825, and his dedication of the cornerstone of the Bunker Hill Monument in Charlestown (now part of Boston), MA. At the gravesite of Lafayette, the Captain, Commanding, of AHAC, Dennis O'Brien, placed a wreath and sprinkled hallowed ground from the Bunker Hill battlefield over his grave.

His descendant, Count Lafayette, Mr. Brent Hardt, American Chargé d' Affaires, and senior French military officers honored us with their attendance. The noted Dutch trumpeter, Melissa Venema, rendered Taps and *Il Silenzio*.

The MOWW Companions and members of AHAC next visited the immaculately-maintained American Aisne, the Marne Cemetery, accompanied by an honor guard from the American Embassy in Paris and the Superintendent of the Cemetery. Here, a wreath was placed honoring the sacrifices of our American brethren. Prior to the cemetery visit, the AHAC delegation attended a church service at the restored 26th "Yankee" Division church across from the Aisne, the Marne Cemetery gate. We then visited the Belleau Woods battlefield, where we placed a wreath honoring the Marines at the "Iron Mike" plaque created by Felix de Welden, sculptor of the Iwo Jima Memorial in Arlington, VA.

On our return to Paris the same day, we were accorded the distinct privilege of marching from the Avenue des Champs-Élysées across the Étoile, and into the Arc de Triomphe de l'Étoile to lay a wreath at the tomb of France's Unknown Soldier. The wreath-laying ceremony was conducted with the cooperation of French war veterans who maintain the tomb. Melissa Venema accompanied us a second time and played *Il Silenzio* while American and French participants, lining both

sides of the tomb, stood at attention. The numerous Parisians and tourists who were present were very respectful and many expressed appreciation for the ceremony.

A highlight of the tour was the formal military banquet. This banquet was held in the Hercules Room of the Palace of Versailles. After several formal toasts to our great countries and leaders, the American Chargé d’Affaires (no Ambassador to France has been appointed) and Count Lafayette spoke of the historic friendship between our countries. Attending were senior American Embassy officials, the American military attaché, military attachés from several NATO countries, and senior French officers and officials. It was a very memorable evening for all attending.

Continuing the tour, the AHAC proceeded to northern France and Belgium, visiting the Newfoundland Memorial and the Thiepval Monument to the Missing of the Somme, the latter being a war memorial to 72,246 missing British and South African servicemen who died in the Battles of the Somme of the First World War between 1915 and 1918 but have no known grave. It is near the village of Thiepval, Picardy, in France. The group also visited the Flanders Field American Cemetery and Memorial, which is a World War I cemetery on the southeast edge of the town of Waregem, Belgium, in the area known as Flanders Fields where fierce fighting took place throughout the war on the Western Front. Canadian war poet Lieutenant Colonel John McCrae wrote the poem “In Flanders Fields” there on 3 May 1915 after witnessing the death of his friend, Lieutenant Alexis Helmer. This is the only American World War I cemetery in Belgium and 411 American

servicemen are buried or commemorated there. Many of them fell at Spitaals Bosschen, an action of the Ypres-Lys Campaign by the 91st Infantry Division in the closing days of World War I. There, the group held a wreath-laying ceremony.

Following these visits, we continued to Great Britain’s largest cemetery in Flanders, the Tyne Cot Commonwealth War Graves Cemetery and Memorial to the Missing, which is a Commonwealth War Graves Commission burial ground for the dead of the First World War in the Ypres Salient on the Western Front. The name “Tyne Cot” is said to come from the Northumberland Fusiliers, who saw a resemblance between the many German concrete pill boxes at this site and typical Tyneside workers’ cottages, i.e., Tyne cots. A wreath-laying ceremony was conducted to honor the British and Commonwealth soldiers buried there and memorialized on a wall dedicated to some 34,000 soldiers whose bodies were never identified. We then proceeded to Leper (Ypres), Belgium, to participate in the “Last Post” Ceremony under the Menin Gate.

Since 1928, the “Last Post” has been sounded under the Menin Gate every night of the year at 8:00 PM. The “Last Post,” traditionally the last salute to the fallen warrior, is played in memory of British Empire and Allied soldiers who fell in the Ypres Salient during World War I. The Menin Gate, erected in 1927, is an archway over the Menin Road, the principal road to the battlefield. The walls of the Menin Gate are inscribed with the names of 54,896 British and Commonwealth soldiers who died during the four great battles at the Ypres Salient and whose bodies were never identified. This moving ceremony, which lasts

20 minutes, starts with a call to attention and sounding the “Last Post.”

The “Last Post” is either a bugle call within British infantry regiments or a cavalry trumpet call in British cavalry and Royal Regiment of Artillery used at Commonwealth military funerals and ceremonies commemorating those who have been killed in war. The ceremony also included the placing of wreaths, and concluded with “Reveille” as the symbolic return to life. As part of this ceremony, we marched into the Menin Gate before some 2,000

spectators, which made an indelible impression on all in our group. This somber ceremony, conducted in respectful silence, was unforgettable.

To conclude the tour, AHAC visited Vimy Ridge, the site of Canadian Forces’ greatest victory during the Somme battles, then to the French National Cemetery at Ablain-Saint-Nazaire, where a Mass was celebrated with several French veterans’ organizations at the Church of Notre-Dame-de-Lorette on the grounds of the cemetery. Here, a wreath was placed in company with French Army veterans honoring those killed during the savage Somme battles. This very large cemetery contains mass graves for those whose bodies were never identified. A unique aspect to this cemetery is a section devoted to French Muslim soldiers, who are buried in a dignified, separate area.

The opportunity for AHAC and its MOWW members to represent our country, Massachusetts, Boston, MOWW and AHAC, on the 100th anniversary of America’s entry into WWI was deeply felt by all. The theme of “We Shall Remember” is embedded in our consciousness. ★

REBOOTING A CHAPTER IS WORTHWHILE WORK

CAPT RUSSELL C. VOWINKEL, USN (RET) | COMMANDER, NORTHERN VIRGINIA CHAPTER, VA
& BRIG GEN ARTHUR B. MORRILL III | ADJUTANT, NORTHERN VIRGINIA CHAPTER, VA

When an electronic device fails, the first step in remedying problems is to reboot, i.e., start over, to start fresh. That's what we're doing to restart Region IV's Northern Virginia Chapter.

OVERCOMING A HISTORY OF MALAISE

Early in 2017 a small group of Companions decided to restart the long-dormant Northern Virginia Chapter. The chapter's Area of Operations (AOR) is the Commonwealth of Virginia's Loudoun, Fairfax and Prince William Counties. Since the former chapter officers were deceased, there was no pass down information. Frankly, prior to their passing, chapter operations were essentially a two man show—neither a desirable situation nor a sustainable operation.

PREPARING FOR ACTION & FOLLOW THROUGH

The question, then, was where to begin? First, the chapter needed some organizers to begin to get the chapter on a stable footing, and then build on that. Specifically, a chapter commander and an adjutant were needed. We volunteered to fill those roles.

The next step was to increase chapter membership by focusing on BG Bultman Chapter (At Large) Companions who resided in the northern Virginia area. From that initial effort, we persuaded eight local Companions to transfer their membership from the at-large BG Bultman Chapter to the Northern Virginia Chapter. Second, we began the arduous task of contacting each chapter Companion, and validating or correcting their contact information. The first pass revealed that of those 76 Companions, five were deceased and 42 had generally correct contact information. The second pass, in work, involves finishing that work and getting the status and/or contact information for those remaining 29 unverified Companions.

DEVELOPING & EXECUTING A STRATEGY

Next, we developed Chapter Strategy to help us structure and prioritize our efforts—and record our accomplishments. We cannot tell you how important this step is because to make any progress one must have a strategy—and follow it. Next, a “to-do list” was developed, taskings were assigned and the next phase of work and follow-up began.

After that, a critical step was to determine a regular location, frequency and time for chapter meetings. We experimented with several options to promote involvement, e.g., evenings during the week, daytime during the weekends, etc. The NoVA chapter is on their third venue, day of the week and time of day. We now have a regular venue, though we'll constantly review it to ensure we're getting the most participation possible—a never-ending task.

ESTABLISHING PRIORITIES & ACTING ON THEM

We then established focus areas: MOWW Strategic Goals, CINC priorities, and chapter and membership management, e.g., validating member contact information, publishing chapter newsletters, reporting, etc. These efforts were organized around implementing a Strategic Goal-based Chapter Action Plan (CAP) and achieving the CINC Priorities.

We naturally focused on MOWW's five Strategic Goals. First, we applied our scalable, “walk, then run” strategy in terms of establishing measurable objectives for each Strategic Goal so we had measurable objectives to pursue so we'd know when we achieved our intent.

As to achieving the CINC Priorities, again, our focus was on measurably achieving them: 1.) recruit more people faster; 2.) donate to the CINC Solicitation so our chapter and the Order achieve their respective donation objectives, and; 3.) attend Region Conferences and the MOWW Convention. In recruiting, we recruited two new members this Operating Year (OY), so at the half-year point, we are halfway to our objective. We're working this very hard, and are strongly focusing on recruiting veterans—which the Order needs.

In the CINC Solicitation area, to establish our chapter donation goal, we used the per Companion donation target used by the Order to establish region donation goals. The MOWW per capita donation goal is \$12.11, which meant our chapter donation goal is \$1,065.68. So far, we've already donated \$1,115.68, exceeding our goal, and we know more donations from chapter members are yet to come. So, we already achieved this CINC Priority too.

As to the third CINC Priority, have all chapters attend region conferences and MOWW Conventions, we are a “go” for that objective too. We participated in the 18 Nov 17 Region IV teleconference, and we will attend the 22 Apr 18 Region IV Conference in Lynchburg, VA. In addition, we will also be attending the 2018 MOWW Convention in Columbus, GA, from 6-12 Aug 18. In short, by the time of the MOWW Convention, we will have achieved this CINC Priority too.

Last, as to chapter management and what Elvis Presley used to call, “Taking Care of Business,” or “TCB,” we have been intently focused on being successful in our IRS filing and TG certification, and based on that leadership focus we are fully compliant with the US Code and the MOWW Bylaws. We also routinely submit all reports as required and/or needed (e.g., MOWW Form 27, “Chapter Activity Report,” chapter newsletters (now

hosted on the MOWW website), SITREPs, etc. These things take a little planning and preparation, a bit of training (the IRS website and the IRS e-Postcard User Guide are exceptional tools), and a bit of effort—but we just quickly take care of them, so we can spend the clear majority of our time on achieving our “Chapter Action Plan and the CINC Priorities. Our use of the “Chapter Commander Checklist” (MOWW Form 19), the “Annual Financial Review Checklist” (MOWW Form 21), etc., are essential to any chapter's success.

CREATING A CHAPTER ACTION PLAN

We looked at our strategy to determine the measurable objectives that we wanted in our Chapter Action Plan. Then, we used our published strategy to develop our CAP, which is now finalized and follows this article. In fact, it was coordinated with our chapter's department and region commanders, our Oversight VCINC, and the CINC. We've already reported our measurable progress via the online MOWW Form 27, “Chapter Activity Report” (CAR) and will do so again at the end of the Operating Year. In our first year CAP, we decided to keep our initial focus narrow, limiting it to BSA, GSUSA, ROTC, YLC, Law and Order awards, and National Security speakers and programs.

Administration, Planning and Reports was another area in which we defined achievable, measurable outcomes. These included, but were not limited to creating chapter management processes and products. The MOWW website (www.moww.org), is a great source of help in this area. Likewise, the IRS website (www.irs.gov) and the IRS' e-Postcard User Guide on the IRS website are equally invaluable in both training chapter Companions and successfully filing with the IRS. Of course, we also developed a continually-improving chapter newsletter, developed a chapter SITREP format, and recruited Companions to fill leader vacancies. In fact, we just recruited a new member and she volunteered to be our BSA and GSUSA Program Coordinator. Last, we've begun an effort to develop performance metrics to gauge progress and success in achieving the objectives in our Chapter Action Plan.

(L-R): COL (Dr) S. John Whidden, USA (Ret) receives an MOWW Outstanding Service Award from NoVA Chapter Commander, PCINC CAPT Russell C. Vowinkel acknowledging his work in rebooting the NoVA Chapter.

CONVERTING IMPOSSIBLE TO POSSIBLE

It is not easy to resurrect a chapter that looks good on paper membership-wise, but isn't, in fact, functioning—but it is doable. Yes, it takes work, persistence, a willingness to see things through, time, patience and volunteers—but it is worth it.

We realized we had to motivate interest and attendance. So, we began with a couple of interested chapter members/volunteers and worked from there. Importantly, our abiding objectives were to work to get more existing members to attend chapter meetings and to increasingly recruit veterans.

We found that getting folks to be involved when they haven't been involved is no small task. However, persistence and faith are the bywords. What we're also discovering is that once they do resume being involved, the reasons that motivated them to become a Companion in the first place are rejuvenated, and that's very good thing.

We also found that thinking big (having a vision for the chapter) but acting small (being practical with stretch goals in scalable ways) are a musts. So,

we began by taking small steps and we will be more ambitious as we proceed. That's where everybody's patience and faith come in. The other bit we "discovered" is the need to know peoples' interests, and find them roles to play that match them.

Unity of command is also important. The commanders in any chapter's chain of command—from the chapter commander to the CINC—bring a lot of energy, ideas and support to Companions who are working reboot their chapter.

In closing, among the many nice byproducts of going through this process is the satisfaction of helping the Order and improving the outreach support we (MOWW) provide to the chapter's local communities—especially to veterans and youth. It's great to feel like a builder if not also a pioneer of the Order, and actually be living our motto, "It is nobler to serve than to be served." The fact is, rebooting a chapter proves that MOWW's motto is far more than mere words. It just doesn't get any better than strengthening a chapter, bringing the good things MOWW offers to our local communities and enjoying the companionship that results. ★

ON SUCCEEDING

BRIG GEN ARTHUR B. MORRILL III, USAF (RET)
CHIEF OF STAFF, MOWW

OVERVIEW

For years, MOWW chapters have often done common functions in unnecessarily different ways by developing one-off, local tools, products or processes, etc., vs. developing and using Order-wide standard operating procedure (SOPs) for common processes that would naturally avoid “reinventing fire.” An enterprise approach for recurring things also avoids the problem of chapters developing great solutions to shared needs but letting them fall into local disuse or not sponsoring them for enterprise adoption, MOWW-wide.

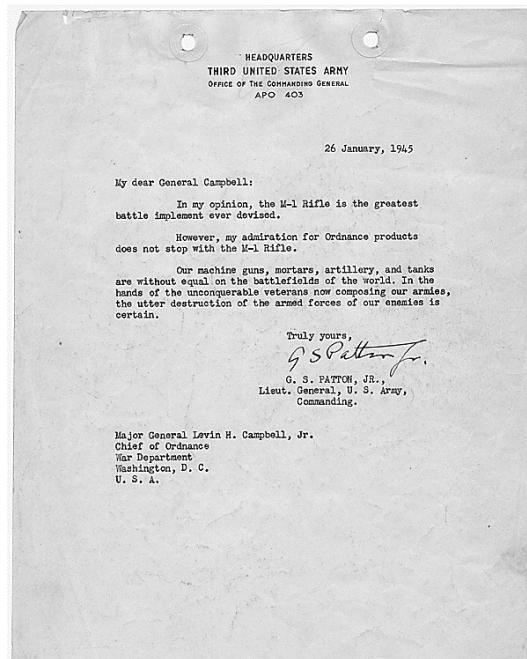

These avoidable “reinventions” and “emergencies” cannibalize time and energy from needed, value-added training, recruiting, outreach and recognition activities. They also reduce morale by creating avoidable churn. This is especially true with IRS tax filing and MOWW Form 9 certification. After over 10 years of concerted focus on this, about 20% of our chapters still struggle with this or simply fail to comply.

In part to address this, MOWW developed its modern website and its component “Companion Toolbox” with SOPs, guides, templates, tools, etc. Of course, that implies chapters are expected to be appropriately familiar with it (and the IRS website) and regularly use it.

GEN PATTON'S MENTORING

In a 26 Jan 45 letter to Maj Gen Campbell (Chief of Ordnance), Gen Patton (Commanding General, Third Army) wrote, “... the M-1 Rifle is the greatest battle implement

ever devised.” His leadership lesson is enduring: those with the vision and the will to use the tools available and develop better ones will succeed. Patton was adamant about achieving battlefield success and as a commander, he held himself personally responsible for ensuring that occurred. That’s a great example for us to emulate as we annually pursue success on our IRS battlefield.

US LAW, MOWW BYLAWS AND CINC's INTENT

The US Code, MOWW's Bylaws and the CINC's Intent are clear. Chapters are MOWW, Inc. sub-elements; they must have an active EIN; they must successfully file with the IRS, and; they must successfully certify with the Treasurer General. The IRS and MOWW have provided much guidance, but the best, step-by-step tool, our “M-1 Garand equivalent,” is the online “IRS Form 990-N Electronic Filing System (e-Postcard) User Guide,” and the online MOWW Form 9. However, no battle implement, policy or tool is worth a darn if we do not use

it. Unpreparedness never fosters success on any field of endeavor. Preparedness does.

OPERATIONAL SUCCESS

We know chapters struggle with this area, and we know that commanders are key to achieving success.

We also know training is necessary. That is why commanders should be working with the TG—right now—to facilitate every chapter's success for the next and subsequent IRS cycles.

WE CAN DO THIS! ★

CPAP, BiPAP OR BEING AFRAID TO SLEEP

CPT (DR) ROBERT E. MALLIN, USA (FMR)
SURGEON GENERAL, MOWW

Continuing my personal journey, and millions of other people's journey, toward normalcy, let's talk respiration and its treatment. There are multiple respiratory ills that befall humanity. They can start from the first breath of a newborn baby and end with the last breath a person takes—hopefully at least a century later. Smoking and various inhalants limit the lung trees from absorbing and using oxygen. Cancerous lesions destroy the handling of oxygen. There are also various obstructive conditions that are both mechanical and neurological, or central causes. Any of these may cause “sleep apnea.”

Sleep apnea is a serious sleep disorder occurring when breathing is interrupted during sleep. Often, loud snoring and stoppage of breathing repeatedly during sleep are noted. Sometimes, the sleep partner may note hundreds of episodes. This used to be “treated” by having the person affected sleep on the couch. We now know this condition means the brain—and the rest of the body—may not getting enough oxygen. The main types of sleep apnea are:

- Obstructive sleep apnea, the more common form that occurs when throat muscles relax.
- Central sleep apnea, which occurs when your brain doesn't send proper signals to the muscles that control breathing.
- Complex sleep apnea syndrome, also known as treatment-emergent central sleep apnea, occurs when someone has both obstructive sleep apnea and central sleep apnea.

Sleep apnea can affect anyone at any age, even children. Sleep apnea risk factors include being male, overweight, over 40, large tonsils or tongue, a small jaw or large neck size (~17 inches or so), needing frequent naps and/or a family history of sleep apnea.

If left untreated, sleep apnea can result in a growing number of health problems, e.g., high blood pressure, strokes, heart failure, irregular heartbeats and/or heart attacks. The 15% higher mortality rate finally got me to check it out because of things like diabetes, depression, headaches, just a lack of energy or falling asleep during work or driving. Believe it or not, restless leg syndrome can be related.

If you have these symptoms, see a specialist, undergo an overnight sleep study and set up treatment. Treatment usually requires a lifelong commitment to wearing some sort of a nasal or full-face mask, and having enough pressure going through it to keep the air passages from collapsing. These masks are of two types: Constant or Bi-level Airway Pressure (CPAP or BiPAP), with or without supplemental oxygen.

It takes a lot to get the device to fit well, provide some comfort and be regulated for your needs. Mask alternatives include an oral device or surgical removal of the extra tissue in the throat (which can be very complex and not help enough). Weight management or lifestyle changes may also help, as may using devices to change your sleeping position.

Be well.★

SOWING AND REAPING

LTC CHERYL D. BRADY, USA (RET)
CHAPLAIN GENERAL, MOWW

Known to God from eternity are all His works. The Military Order of the World Wars was conceived in the heart of God long before its manifestation in the nation.

In our founding father, God saw a man who would do according to His will. General of the Armies John Joseph Pershing sowed the seed of MOWW in faith. The seed was a word spoken in season from a God-given vision planted in his heart. What was sown became a gift to the nation—a premier national patriotic organization. Every good and perfect gift comes from above. The nation has been reaping the benefits of the Order within her borders for almost 100 years. Every Companion has a duty to remain steadfast in serving for as long as he or she is able, and for as long as our communities and the nation need what only we can give.

The principle of sowing and reaping is an unshakeable truth. To everything there is a season, a time for every purpose under heaven: A time to plant and a time to pluck what is planted. There are five bags of seed from which every Companion can draw—the Order's Five Strategic Goals. Where, when and how the seed is sown will be unique to

every chapter. What is sown does not spring forth overnight. If sown in faith, faith will do its perfect work.

Faith looks beyond present reality to what is possible in the future. The strength and resolve to persevere comes only from God. The work of sowing and reaping as members of a God-ordained organization helps fulfill God's eternal purpose.

Being a Companion in MOWW is not about us individually but corporately doing what honors and glorifies God. God chooses the places for His blessing. In 1919, He chose MOWW. We all must strive to do our part to continue being a blessing to those whom and with whom we serve. We must never give up and never give in to forces that attempt to steal, kill and destroy an indefatigable spirit. The seeds sown today will result in a harvest of Companions later.

Let us be faithful in the little things needed to grow our Order so we can be entrusted with even greater things. If we sow little, we will reap little. If we sow much, we will reap much. ★

BG Scott Chapter, GA

Informative Chapter Talk

BY MAJ ROBERT KOMLO, USAF (RET)

Mr. Jason Blankenship, Director of Business Services at the Better Business Bureau in Macon, GA, receives a MOWW Certificate of Appreciation from Chapter Commander, COL Raleigh Mann. Mr. Blankenship provided an outstanding presentation, "Scams Against Seniors." He described how senior citizens are lucrative targets and emphasized that seniors are most likely to be polite and trusting, have difficulty in saying "no," may suffer from memory problems, and are most likely to have nest eggs for investing in bogus opportunities or enjoying superficial, free benefits. To say the least, the chapter was most appreciative for his most informative talk.

MajGen Pendleton Chapter, CA

Welcome Capt Vallas

BY PCINC CAPT DEBORAH A. KASH, USAF (RET)

Capt Theodore G. “TG” Vallas, USAF (Fmr), spoke to the MajGen Pendleton Chapter at our January meeting about Scouting. Capt Vallas has been active in Scouting for 50 years and wove his military experiences with his Scouting history for a fascinating story. He is also a collector of Boy Scout memorabilia and displayed his collection. Capt Vallas was very interested in MOWW and how he can help advance the chapter’s involvement with scouting and signed an application to join. Since becoming a Companion, he has advertised to recruit students for our YLC, presented Eagle Scout Certificates and is in the process of designing a special patch for Boy Scout Color Guard Participation in the Massing of the Colors. Capt Vallas has also just been elected to the office of Chapter Vice Commander. The MajGen Pendleton Chapter welcomes Capt Vallas to MOWW!

LTG Middleton Chapter, LA

Baton Rouge Police Chief Recognized

BY LTC REGINALD BROWN, LTC, USA (RET), USAF (RET)

In August 2017, the LTG Troy H. Middleton Chapter developed a program to recognize the retirement of a Law Enforcement Chief and Fire Chief in honor of their many years of service to the city of Baton Rouge and parish of East Baton Rouge.

The chapter was honored to present the first of these recognitions to retiring Baton Rouge Police Department Chief Carl Dabadie, Jr. on 29 September 2017, in the headquarters of the Baton Rouge Police Department.

Chief Carl Dabadie, Jr. was honored on this day because he has served with noble distinction. From his February 2013 swearing in to his October 2017 retirement, Chief Dabadie has overseen the development of our youth through community outreach programs in the schools and our communities. He also ensured resource deployment was not only data-based, but more importantly, human relationship-based.

Chief Dabadie’s service as a second generation police officer, from 1985 to 2017, is a testament to the importance of lifelong service. From uniformed patrol, director of training, assistant uniform patrol commander, chief of staff, provisional police chief and to police chief, he has set an example of service for others to follow.

We, as public servants— police, fire, military and teachers— are slow to accept reward for our service, but recognition is important to ensure others see the example and follow in our footsteps.

(L-R): LTC Reginald Brown, Senior Vice Commander; LTC Paul McKeough, Chapter Commander; Carl Dabadie, Jr., Baton Rouge Police Chief; LTC Shaun McGarry, Louisiana Department Commander.

Information from focus groups can change the way VA delivers health care to women veterans

At the 2017 National Women Veterans Summit, 20 women veterans gathered in small groups to discuss

their experiences with transition from military to civilian life and their knowledge and perceptions of VA benefits, particularly health care.

Hyperbaric treatments offer new promise for veterans with chronic PTSD

Hyperbaric therapy uses pressure to increase the body's oxygen supply and promote healing. Use of HBOT for PTSD is

conducted under a physician's guidance and is off-label, meaning the Food and Drug Administration has not officially approved the therapy for PTSD. However, health care providers may prescribe it when they believe it is medically appropriate for a patient. Existing research suggests some patients experience improvement in traumatic stress symptoms following HBOT. Stop. Take a Breath. Be Mindful

Mindfulness is the state of moment-to-moment awareness of one's experience without judgment. It is human nature to sometimes live on autopilot. We have tendencies to rehearse the future — what will I do next? Or rehash the past — I shouldn't have done that. Being mindful is noticing what is happening

right now; without judging or trying to fix it. Being mindful and aware allows you to tune into signs and signals that your body and mind is sending.

you can put together. A great gesture to a veteran! Specific instructions may be found at: <https://www.blogs.va.gov/VAntage/28415/contribute-veteran-day/>

Previously missing Korean War Veteran finally laid to rest

On May 23, 1951, Atkins was a member of Company E, 2nd Battalion, 187th Airborne Infantry Regiment, 187th

Airborne Regimental Combat Team, when his unit was attacking enemy forces near Mae-Bong, South Korea. The regiment's mission was to secure Hill 911. As the company prepared to assault the hill, Atkins and two other soldiers from his company were reported missing in action.

Today, 7,715 Americans remain unaccounted for from the Korean War. Using modern technology, identifications continue to be made from remains that were previously returned by North Korean officials or recovered from North Korea by American recovery teams.
