Printed on Recycled Paper

August 26, 2024, Fostoria, Ohio — The Ottawa Sandusky Seneca Solid Waste District alongside the City of Fostoria Mayor’s Office are pleased to announce the availability of recycling bins for household recyclable items, provided by The Ottawa Sandusky Seneca Solid Waste District (OSS). This initiative, aimed at promoting environmental sustainability, will offer Fostoria residents a convenient way to participate in recycling efforts.

The OSS Board's cooperation has been instrumental in addressing the need for accessible recycling options in Fostoria. In collaboration with the City of Fostoria, a dedicated site at Foundation Park, 1225 S. Union St., Fostoria, has been prepared to accommodate the new recycling bins, ensuring residents have easy access to this essential service.

"We are excited to see the positive impact this program will have on our community," said Gary Baty, OSS Solid Waste District Executive Director. "By working together, we can significantly reduce waste and promote a sustainable future for Fostoria."

Fostoria Mayor Don Mennel commented on the new initiative, stating, "While this project has taken longer than we would have liked, we have done it right. We have lighting and cameras on site to ensure that people do not leave garbage or other items that cannot be recycled. We are also installing bins for recycling clothing and shoes."

Mennel continued, "We are grateful to OSS for their help and cooperation in getting this effort off the ground. We look forward to working with them on special projects like tire recycling in the future."
