pureAir Active HEPA+ with ODOGard Air Purification

SEEKS CAPTURES & DEACTIVATES INDOOR PATHOGENS

pureAir Active HEPA+ with ODOGard® is the only purifier to combine both active and passive air purification technologies with the odor-eliminating power of ODOGard. In addition to reducing volatile organic compounds (VOCs), allergens such as pollen and pet dander, and odors caused by mold, bacteria and other pollutants, it has proven to deactivate 99.98% of SARS-CoV-2 from the air.*

Active Radiant Catalysis (ARC®), our proprietary photocatalytic oxidation (PCO) technology uses energy to activate a catalyst, turning moisture into products that continuously clean your space.

Bipolar Ionization creates a plasma of electrical charges, ionization removes allergens and other pathogens from the breathing space.

(Room size: 375 sq.ft. 10.6" x 10.6" x 17.5" Pro size: 750 sq.ft. 11.3" x 11.3" x 24")

A UNIQUE fusion of active and passive air purification technologies.

BIPOLAR IONIZATION

Ionization brushes create a plasma of negative and positive charges to remove particles from your breathing space.

PHOTOCATALYTIC OXIDATION

Using a broad-spectrum UV light and moisture in the air, active oxidation products are created to seek out and inactivate pathogens at the source.

HEPA FILTER WITH ODOGARD® COATING

Traps and destroys odors along with allergens and other particulates. Active HEPA+ ODOGard® is the only air purifier on the market that uses proprietary ODOGard technology to eliminate odors quickly and permanently by bonding to odor molecules.

Greentech Connect App for Mobile Control Included

Greentech Connect gives you control of your Greentech products from anywhere. Set ideal purification levels, put in NIGHT MODE, or get up-to-date information such as current settings, air quality reading, room temperature and humidity, component lifetime and more.

^{*} Laboratory tests prove to inactivate over 99.98% of SARS-CoV-2 in the air within 10 air exchanges in a controlled environment
