

### **Special Programming 2019/2020**

Please note most special programming is an additional cost paid directly to our collaborative Vendors, unless otherwise noted.

We have a long relationship with our vendors so our cost is lower than the general public offerings. Some dates are TBA and Costs may be confirmed closer to registrations opening. We will do our best to have these numbers finalized where they are not within 2-4 weeks of scheduled programming.

\* Please Check back periodically as we plan to have more offerings throughout the year, and sign up for our newsletter to get sent any new offerings directly!\*
