ABOUT US

Our Vision

The expansion of the company's current activities and engaging in new ones to achieve an effective participation in the global maritime market and to strengthen the capacity of the Egyptian national fleet in accordance with the international standards of safety and the environment.

Our Mission

Providing integrated shipping services with high efficiency that to meet the requirements of our customers and partners and achieving sustained growth rates of shareholders.

who we are...

National Navigation Company was established in 1981 to implement the strategy adopted by the Egyptian government aimed at developing the Egyptian commercial fleet by giving the opportunity to companies and individuals to own commercial vessels without a maximum payload.

National Navigation Company is considered the largest shipping Egyptian company specialized in shipping dry cargo among the world's largest ports.

It is also responsible of conducting regular liner lines for vessels owned or chartered for shipping general cargo among ports in Northern and Western Europe, the Adriatic, the Black Sea, and the Mediterranean Sea.
