- VIII. Consideration of Options to Increase Funding for beach maintenance Trink/Harold
 - A. Harold reviewed the history and ongoing discussions with the County Supervisor, Director of DPW, Head of LAFCO, and the Parks department

• 1994:

 The County authorized CSA3 to assume responsibility for trash collection and security patrols of the beach within CSA3 after a majority vote of the property owners.

1996:

 The annual assessment was increased to \$50 following a vote.

1997:

- The State passed Proposition 218, prohibiting property owners from being assessed for services to areas with public access.
- It was assumed that the County would review existing assessments in light of Prop 218, but this was not done.
- The \$50 annual assessment continued unchanged.

Past 4 years:

- The Board of CSA3 proposed two votes to increase the annual assessment to account for inflation and service costs for the beach and median maintenance.
- Both votes failed.

Last several months:

- CSA3 Board members met with County officials to discuss ways to best continue our CSA services with no assessment increase.
- They proposed setting up a new subsection of the CSA in the areas where our beach services have a greater impact.
- We discovered in May that California Proposition 218 would not allow that.
- Upon consulting civil engineering firms, we learned about the public access issue in Prop 218.
- They now think it would be better to consider adding our beach services to the County's existing CSA11 for Parks and Recreation needs across the County. We returned to County officials, who suggested the beach services might belong to the CSA that manages the County's public parks.
- County officials proposed creating a subdivision of the Park CSA for beach services

- It, too, would require a vote of affected property owners and a civil engineer's assessment of property owner benefits vs. public access.
- Recent meeting:
 - The CSA3 Board asked County officials to consult with the County's legal counsel regarding:
 - 1. The possibility of transferring beach services to a subdivision of the Parks Department's CSA11.
 - 2. The type of vote or ballot required for such a transfer.
 - 3. The County's responsibility for reviewing existing and future assessments considering Prop 218.
 - 4. Confirmation if the existing assessment for beach services is "grandfathered" since it predates Prop 218.
- Awaiting answers and a subsequent meeting
- IX. Schedule for Election of Officers and Annual Meeting (Any Sunday in October)-Trink
 - A. Resort will not rent us a meeting room without also booking sleeping rooms, until 30 days before the meeting
 - B Trink is trying to set up a meeting with the Resort Manager through their Resort HOA Manager.
 - C. Harold reviewed the rules for elections adopted by the Board September 27,
 2021 (Full document attached)
