YGGDRASIL

LONDON DRY GIN 1 Liter 90 proof 45% Alc./Vol.
• 7 Times Distilled • • Optimally Balanced Ph 7.2 •

According to Nordic mythology, the tree of life - aka Askur Yggdrasil - stretches to all corners of the world. To make this truly unique and crispy London dry gin, we travelled the world to source a spirit from the Champagne region of France, and a gin distillate made with Balkan Junipers, Polish Coriander, French Angelica, Spanish Citrus, Mediterranean Liquorice and Chinese Cassia combined with pure Icelandic spring water. we have created this truly unique and crispy London dry gin.

Fully reusable secondary packaging. Our 1 liter boxes and interleave are reusable as coasters. Our 750ml boxes and interleave are reusable as display cards and coasters. All packaging is also fully recyclable. We have filed a patent protection on our secondary packaging concept.

THE PROCESS

BASE SPIRITS: The base spirit is made from the highest quality wheat from the champagne region of France. Where it is column distilled minimum seven times.

GIN DISTILLATE: We then hand select six botanicals from around the world that are distilled in the UK to create a very clean tasting distillate for our London dry Gin.

THE WATER: Blended with pure Icelandic water which is very low in minerals and high in PH allows the character of our distillates to flourish.

THE FINISH: Our base spirit is carbon filtered and then blended with Gin distillate which is rectified together in our Icelandic facility and then finished off by blending it with Icelandic water.
