V O D K A

SEVEN • SEPT • SJÖ

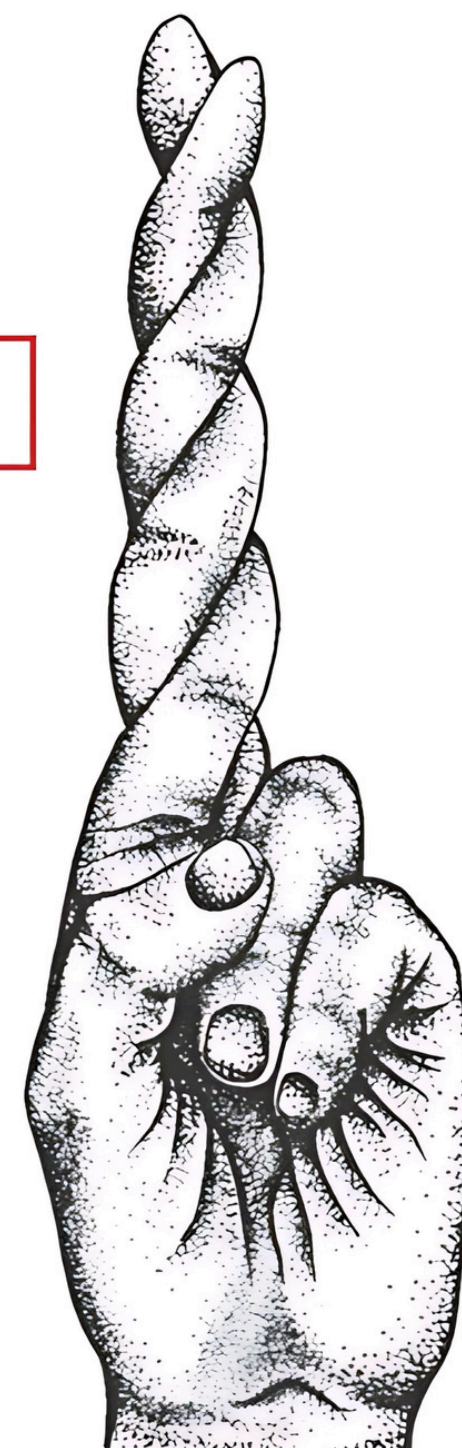

WE SOURCE THE HIGHEST QUALITY WHEAT FROM THE  
CHAMPAGNE REGION OF FRANCE.

THERE, IT IS CULMIN DISTILLED A MINIMUM 7 TIMES.

This premium spirit then travels to Iceland, where it's  
carbon filtered and blended with Icelandic water.

ICELANDIC WATER HAS A VERY LOW MINERAL CONTENT AND A **HIGH  
ALKALINE LEVEL**, WHICH ENSURES A CLEAN CRISP TASTE TO THE END  
PRODUCT, **with a ph level of 7.4.**

This unparalleled blend of high-quality spirit from France, mixed with the  
high alkaline levels from the Icelandic water, together, creates the DNA of  
this ultra premium vodka. This is also the inspiration of the name **HELIX**,  
which is the name of the spiral in a DNA thread.
