

WHY IS OUR WATERSHED IMPORTANT?

Everyone relies on water and other natural resources to exist. What we do impacts the quantity and quality of water. Our watersheds provide water for drinking, growing food, and recreation. Wildlife also requires healthy watersheds for both food and shelter.

SUSQUEHANNA RIVER BASIN

Includes all, or portions of, 66 Counties

York County is in the Lower Susquehanna

4 million people live here

Is home to the native Brook Trout

Has more than 49,000 miles of streams

YORK COUNTY IS COMPRISED OF 11 WATERSHEDS

Codorus | Conewago West | Deer Creek | East Branch Codorus | Gunpowder | Kreutz | Little Conewago Muddy | Susquehanna | South Branch Codorus | Yellow Breeches

TO PROTECT OUR WATERSHED

Pick up trash and clear storm drains.

Turn off water when brushing your teeth.

Wash your car at a car wash.

Reduce the size of your mowed lawn by planting more native plants.

Pick up dog waste and dispose of it properly.
