Statement of Disclosure

I am not a veterinarian; I do not diagnose medical issues, offer medical advice, prescribe drugs or perform surgery.

My role is that of facilitator, assisting your animal to attain and maintain a naturally healthy state. The specific results of the bodywork sessions will be different for each animal: beneficial effects of massage and bodywork include circulation of blood and lymph, pain relief through endorphin release, increase in trust and mood elevation, improved flexibility; body awareness, muscle efficiency, increased performance, shortened recovery from illness, injury or surgery, emotional calming and injury prevention.
