Oak Meadow

Oak Meadow's curriculum aligns with rigorous academic standards, and it can be customized to meet students' interests, skills, and learning styles. Our distance learning school is accredited by New England Association for Schools and Colleges, one of the most esteemed accrediting agencies in the United States. Each year thousands of families purchase our curriculum for independent use, and up to 800 students enroll in our distance learning school. We also partner with over 120 independent schools across the U.S. and abroad. While we are based out of Putney, Vermont, our students come from every U.S. state and nearly 60 countries.

ABOUT US

Latinos Homeschooling started in 2016 in order to form a community of Latinos who were homeschooling and create support, share resources for Latinos, and create friendships. Slowly our group started growing internationally. In 2020, when the pandemic happened, the community expanded. We started hosting virtual events like virtual Storytime, Mom's Whine & Night In, Lego challenges, Tween/Teen book club, Show & Tell and much more!!! In 2021, we hosted our first conference! We are excited to grow and provide more resources such as classes which support homeschooling families!
