---

## **Current Position:**

Mercy is the founder of RHS - Rahma HomeStudy, Kenya's premier Cambridge Curriculum online homeschooling programme. She is also the National Advisor of the First Global Robotics Kenya Team.

## **Academic Qualification:**

Bachelor of Education (B.Ed), Kenya Methodist University, Kenya.

## **Professional Certifications:**

Certified High School Teacher, Google Certified Educator (Levels 1 & 2), *Learning for a Sustainable Future* (University of Edinburgh) and *AI in Education* (Sam Houston State University)

## **Work Experience:**

Mercy has over 20 years of experience in teaching, school development and education management across the international school sector in Kenya.

## **Research Interests:**

Human-centred learning design, responsible use of artificial intelligence in education, and the role of robotics in fostering critical thinking, creativity, emotional intelligence, empathy, and innovation that benefits both individuals and their communities.

## **Presentation topic:**

Academic Integrity in the AI Age  
Policy & Practice: From Punishment to Restoration

Do we build school systems that punish AI misuse, or learning environments that develop responsibility, judgment, and trust?
