

Campro USA Appoints New Dealer in Florida

(l-r) Dan Thomas, Clark Shafer, Dave Tilley, Robert Arthur, Jay Corman

Campro USA, the U.S. office of Campro Precision Machinery, has announced the appointment of Jacore Technologies/Arthur Machinery as its new dealer for the state of Florida representing Campro's complete line of products, including Vertical Machining Centers, Turning Centers and Bridge Mills. Campro Machining and Turning Center models are on display in the Jacore/Arthur Tampa showroom. Campro USA, headquartered in Bethlehem, PA, is managed by Bob Morrison and Dave Tilley, who have extensive careers in machine tools at both the distributor level and as managers for major Machine Tool Builders.

According to Morrison, "We are very pleased to be working with Jay Corman, Jacore Technologies/Arthur Machinery as they provide their customers with a wealth of manufacturing expertise, honesty and integrity in their business dealings, and unsurpassed applications and service engineering.

Jay has an extensive background in service, applications and automation and has over 25 years of experience in the Florida and Puerto Rico markets."

Campro will be the flagship product line for Jacore/Arthur.
