

**May 22, 2022 - One of my e-mails to the board after I found out about the ARC resubmittal letter.**

**And at that point I knew it was malicious but really had no clue how fraudulent it really was.**

**Importance:** High

Again, my advice to the board is to mitigate the damage by rescinding the ARC letter to the Badow's, sort of stunned that board has failed to deal with such a malicious and fraudulent action in a timely manner.

Michael has dug a hole for the board and residents.....time for someone to step up and do the right thing.
