

Honey Renewal Treatment

2.7 oz.

Ultra-moisturizing and gentle bee complex gelée rich in antioxidants.

How sweet it is! Achieve a more moisturized complexion while you sleep with our Honey Renewal Treatment. Our special bee complex formula combines the natural power of honey, royal jelly and propolis to help address the signs of aging and renew your skin with rich moisture. Add our Honey Renewal Treatment to your self-care routine and see what all the buzz is about.

Why we *love* it

- Gentle overnight face gel works while you sleep
- Protective, antioxidant-rich formula
- Ultra-moisturizing renewal blend to visibly reduce damage caused by blemishes
- Ideal for combination to oily skin

Key ingredients

- **Honey** - a moisturizing natural antioxidant with protective benefits while sealing in skin moisture.
- **Royal jelly extract** – nourishing extract created by bees to support healing and protect skin.
- **Propolis** – vitamin-rich extract found in beehives to naturally support healthy repair and protect the skin barrier.

How to use it

Apply an even layer to face, neck and décolletage at bedtime.

Allow to absorb into skin while you sleep.

Rinse with warm water in the morning or before makeup application.

APPLICATION TIP: For extra cooling and calming benefits, refrigerate the treatment before use.

Perfect paired with

- Beautifully Balanced Collection
- Simple Skin Collection
- Anti-Blemish Spot Treatment
- Charcoal Detox Facial Bar Soap
