Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

ATTACHMENT TO 2017 SCHEDULE MB: LINE 11
STATEMENT BY ENROLLED ACTUARY

Schedule MB, line 11 - Justification for Change in Actuarial Assumptions

The assumptions and methods differ from those used the preceding year in the following respects:

- We increased the assumed hourly/weekly contribution rates to reflect negotiated increases in the current year.
- The assumed future hours worked for Local 135 participants were increased from 1,550 hours to 1,700 hours per future year for vested active lives and decreased from 1,200 hours to 1,150 hours per future year for non-vested active lives. This represents our best estimate of future hours based on recent plan experience.
- The assumed operational expenses were decreased from \$130,000 to \$115,000 to reflect our best estimate of future expenses based on recent plan experience.
- The assumed mortality rates were changed from 115% of the RP-2014 Blue Collar Mortality Table for employees and healthy annuitants adjusted backward to 2006 with the MP-2014 projection scale and projected forward using the MP-2015 projection scale to 110% of the RP-2014 Blue Collar Mortality Table for employees and healthy annuitants adjusted backward to 2006 with the MP-2014 projection scale and projected forward using the MP-2016 projection scale. This change was made in order to better reflect anticipated improvements in mortality rates for each future year due to medical advances and lifestyle changes.
- The assumed retirement rates were changed according to the schedule in Appendix B to represent our best estimate of future retirement patterns based on recent plan experience.
- The current liability interest rate was changed from 3.28% to 3.05%. The new rate is within established statutory guidelines.

Actuary's Statement of Reliance

In completing this Schedule MB, the enrolled actuary has relied upon the correctness of the financial information presented in the pension fund audit and upon the accuracy and completeness of participant census data provided by the plan administrator.

ACTUARIAL ASSUMPTIONS

The following assumptions are used throughout this report except as specifically noted herein.

Valuation date	January 1, 2017																																				
Interest rates																																					
<i>ERISA rate of return used to value liabilities</i>	7.25% per year after investment expenses																																				
<i>Current liability</i>	3.05% (in accordance with Section 431(c)(6) of the Internal Revenue Code).																																				
Operational expenses	\$115,000 per year																																				
Mortality																																					
<i>Assumed plan mortality</i>	110% of the RP-2014 Blue Collar Mortality Table for employees and healthy annuitants adjusted backward to 2006 with the MP-2014 projection scale and projected forward using the MP-2016 projections scale.

RATIONALE FOR SELECTION OF ACTUARIAL ASSUMPTIONS

The non prescribed actuarial assumptions were selected to provide a reasonable long term estimate of developing experience. The assumptions are reviewed annually, including a comparison to actual experience. The following describes our rationale for the selection of each non-prescribed assumption that has a significant effect on the valuation results.

ERISA rate of return used to value liabilities	<p>Future rates of return were modeled based on the Plan's current investment policy asset allocation and composite, long-term capital market assumptions taken from Horizon Actuarial's 2017 survey of investment consultants.</p> <p>Based on this analysis, we selected a final assumed rate of 7.25%, which we feel is reasonable. This rate may not be appropriate for other purposes such as settlement of liabilities.</p>
Mortality	<p>The RP-2014 Blue Collar Mortality Tables for employees and healthy annuitants adjusted backward to 2006 with the MP-2014 projection scale and projected forward using the MP-2016 projection scale was chosen as the base table for this population.</p> <p>The blue collar table was chosen based on the industry of plan participants.</p> <p>Finally, a 110% multiplier was applied in order to more closely match projected deaths to actual post-retirement death experience. The period of actual data studied to develop this multiplier was from January 1, 2012 to December 31, 2016 for this plan, blended with a study of deaths for larger plans in similar industries.</p>
Retirement	<p>Actual rates of retirement by age were studied for this plan for the period January 1, 2012 to December 31, 2016. The assumed future rates of retirement were selected based on the results of this study.</p>
Withdrawal	<p>Actual rates of withdrawal by age were last studied for this plan for the period January 1, 2012 to December 31, 2016. No further adjustments were deemed necessary at this time.</p>
Disability	<p>Disability decrement is not valued as no disability benefits are payable and we believe the withdrawal rates reasonably reflect terminations due to disability.</p>
Future hours worked	<p>Based on review of recent plan experience.</p>

ACTUARIAL METHODS

Funding method	Individual entry age normal with costs spread as a level dollar amount over service
Population valued	
<i>Actives</i>	Eligible employees with at least one hour during the preceding plan year.
<i>Inactive vested</i>	Vested participants with no hours during the preceding plan year.
<i>Retirees</i>	Participants and beneficiaries in pay status as of the valuation date.
Asset valuation method	
Actuarial value	Smoothed market value with phase in effective January 1, 2000. Gains and losses are amortized over a period of 5 years. The actuarial value can be no less than 80% nor more than 120% of the market value as of the determination date.
Unfunded vested benefits	For the presumptive method, actuarial value, as described above, is used

PLAN HISTORY

Origins/Purpose

The Indiana Teamsters Pension Fund was established effective September 1, 1989 pursuant to an Agreement and Declaration of Trust and plan document for the stated purpose of providing retirement benefit to Chauffeurs, Teamsters, Warehousemen and Helpers Local Union No. 135.

The Pension Plan is managed under the provisions of the Labor Management Relations Act by a Board of Trustees consisting of an equal number of representatives from Labor and from Management.

The purpose of the Pension Plan is to provide Normal and Early Retirement Benefits, Joint and 50% Survivor Benefits, Optional Retirement Benefits, Vested Benefits and Death Benefits.

Merger of Local 364 Sales Drivers and Industry Pension Fund

The Local 364 Sales Drivers and Industry Pension Fund merged into this Fund on October 31, 2009. The pre-merger benefits for Local 364 participants are preserved under the eligibility and accrual provisions immediately prior to the merger. These provisions include the following service accrual, eligibility requirements, and early retirement adjustments:

Contributions and pension credits are reported and based on weeks worked.

<u>Weeks Worked</u>	<u>Pension Credits</u>
0-21	0.00
22-26	0.50
27-39	0.75
40+	1.00

The accrued benefit immediately prior to the merger was \$60 per pension credit.

Normal retirement age for benefits accrued immediately prior to the merger is the earlier of age 65 and 5th anniversary of participation.

Early retirement age for benefits accrued immediately prior to the merger is age 50 and 15 pension credits. The reduction for early retirement benefits is 7/12ths of 1% for each month prior to age 57 down to age 56 plus 1/3rd of 1% for each month prior to age 56.

Indiana Teamsters Pension Fund Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Indiana Teamsters Pension Fund Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statements of changes in net assets available for benefits for the years then ended, and the statements of accumulated plan benefits and changes in accumulated plan benefits as of and for the year ended January 1, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Bank of America, N.A., the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Custodian holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained certifications from the Custodian as of and for the years ended December 31, 2017 and 2016, that the information provided to the Plan Administrator by the Custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Supplemental Schedules

The supplemental schedule of assets (held at end of year) as of December 31, 2017, and the schedule of reportable transactions for the year ended December 31, 2017, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

INDIANA TEAMSTERS PENSION FUND PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF PLAN

The following description of Indiana Teamsters Pension Fund Pension Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan is a multiemployer defined benefit retirement plan which is funded by participating employers' contributions as specified in the Collective Bargaining Agreements between the Local Union Nos. 135, 364, and 414 of the International Brotherhood of Teamsters, Chauffeurs, Warehousemen and Helpers of America, certain individual trustees, and any other local union of Teamsters which the Board of Trustees of the Plan, in its sole discretion, so determine to include. Effective October 31, 2009, Local 364 Sales Drivers and Industry Pension Fund (Local 364 Plan) was merged into the Plan. All assets and liabilities of Local 364 Plan were transferred into the Plan; and participants of Local 364 Plan became participants of the Plan on that effective date. The vested services and benefits accrued for each participant of Local 364 Plan were assumed by the Plan. A Board of Trustees representing an equal number of employer and union representatives manages the Plan and acts as the Plan Administrator. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Board of Trustees determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions: Funding of the Plan is provided by participating employers within the requirements of ERISA and is consistent with the collective bargaining agreements. The Plan has met the minimum funding requirements for 2017 and 2016. Participant contributions are permitted in limited circumstances due to layoff or illness as more fully described in the Plan Agreement.

Benefits: Each retired participant, who was not a part of the Local 364 plan, who is age 65 with five years of service is eligible for a monthly Normal Retirement Benefit, payable for life and equal to 2% (3% prior to January 1, 2010) of total contributions paid on the participant's behalf. Each Local 364 retired participant who is age 65 with five years of service is eligible for a monthly Normal Retirement Benefit, payable for life and equal to pre-merger benefits plus 1% of total contributions paid on the participant's behalf prior to January 1, 2014, plus 2% of total contributions paid on the participant's behalf on and after January 1, 2014.

The Plan permits early retirement at age 55 after 10 years of credited service if the participant had at least one hour of service prior to January 1, 2001. Otherwise the participant must be age 57 after 10 years of credited service to qualify for early retirement. A participant's Early Retirement Benefit is a monthly pension benefit equal to 2% (3% prior to January 1, 2010) of total contributions paid on the participant's behalf, reduced by .5% per month for each month that the early retirement date precedes the normal retirement date.

Participants' retirement benefit options include single life annuity with period certain, qualified joint and survivor annuity or qualified optional survivor annuity.

Benefits previously provided by Local 364 Plan have been adopted by the Plan. Participants who have attained age 50 and have 15 or more pension credits (units of years an employee works in covered employment), of which at least one pension credit was earned after age 44 from employment during the period for which contributions were paid, are eligible for a regular pension. The regular pension is reduced, however, if retirement occurs before age 57. Participants may elect to receive their pension benefits in the form of a joint and survivor pension. The Plan also provides disability and survivor benefits. The pre-merger accrued benefits will continue to be payable according to pre-merger provisions. Any benefits earned after the merger will be payable in accordance with the Indiana Teamsters Pension Fund Pension Plan Agreement.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

In the event of death of a participant prior to the date of retirement, the beneficiary will be entitled to receive a monthly pension benefit per the terms of the Plan Agreement. A Local 364 participant who retired on or after November 1, 1998, but prior to November 1, 2009, retains eligibility for a \$5,000 lump sum death benefit. No other participants are eligible for this benefit.

A Local 364 participant who becomes totally disabled and has earned 15 pension credits will receive a disability benefit that is payable until death or recovery if the participant was active in the Local 364 Plan prior to the merger. Any Plan participant who was receiving a disability benefit as of October 31, 2009, will continue to receive such benefit. Any participant who did not submit an application for a disability benefit prior to November 1, 2009, will not be eligible for such benefit.

Vesting: A participant is 100% vested after five years of service. Prior to the completion of five years of service, a participant's vested percentage is zero.

Plan Termination: In the event the Plan is terminated, the net assets of the Plan will be allocated for payment of Plan benefits to the participants in order of priority determined in accordance with ERISA, applicable regulations and the Plan Agreement.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, the actuarial present value of accumulated Plan benefits and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Board of Trustees determines the Plan's valuation policies utilizing information provided by the Plan's investment advisor and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Cash: The Plan maintains certain balances in bank deposit accounts which, at times, may exceed federally insured limits. The Plan has not experienced any losses in such accounts.

Payment of Benefits: All benefits, including death and disability benefits, are recorded by the Plan when paid.

Expenses: Administrative expenses for maintaining the Plan are paid directly from the Plan's assets.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Tax Status: The Internal Revenue Service (IRS) has determined and informed the Plan by a letter dated June 9, 2015, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in process. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions for the service participants have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated participants or their beneficiaries, (b) beneficiaries of participants who have died, and (c) present participants or their beneficiaries.

The actuarial present value of accumulated plan benefits is determined by independent actuaries using the Individual Entry Age Normal method and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, withdrawal, or retirement) between the valuation date and expected date of retirement. The significant actuarial assumptions used in the valuation as of January 1, 2017, are: (a) mortality of participants (RP-2014G), (b) retirement age assumptions (2% for ages 55-60; 15% for age 61; 25% for ages 62-64; 30% for age 65; 40% for age 66; 25% for ages 67-69; 100% for ages 70 and older), (c) 7.25% assumed investment return after investment expenses of \$115,000; and (d) T-10 turnover table.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through July 9, 2018, the date the financial statements were available to be issued.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Following is a description of the valuation methodologies used by the Plan for assets that are measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered Investment Companies and Money Market Fund Shares: Valued at the daily closing price as reported by the funds. These funds are required to publish their daily net asset value (NAV) and to transact at that price. These funds held by the Plan are deemed to be actively traded.

U.S Government and Agency Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Corporate Bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Common Stocks, Exchange-traded Funds and Preferred Stocks: Valued at the closing price reported on the active market on which the individual securities are traded. Some preferred stocks are valued based on pricing models of comparable securities with similar credit ratings.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a summary, within each level of the fair value hierarchy, of the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2017 and 2016:

NOTE 4 - INVESTMENT INFORMATION CERTIFIED BY CUSTODIAN

All investment information disclosed in the accompanying financial statements, related notes and supplemental schedules has not been audited, but was obtained or derived from information provided to the Plan Administrator by the Plan's custodian. The following is a summary of the Plan's investment information which has been prepared and certified as complete and accurate as of December 31, 2017 and 2016, and for the years then ended, by Bank of America, N.A., the Plan's custodian, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

	2017	2016

Interest and dividends	<u>\$ 1,395,896</u>	<u>\$ 1,040,004</u>

NOTE 5 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

Fees paid for legal, accounting and other services rendered by parties-in-interest were based on customary and reasonable rates for such services.

NOTE 6 - RISKS AND UNCERTAINTIES

The Plan's investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Plan's financial statements.

The actuarial present value of benefit obligations is reported based on certain assumptions pertaining to interest rates and participant demographics, which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in estimates and assumptions in the near term could be material to the Plan's financial statements.

NOTE 7 - FUNDING STATUS

Based on funding regulations required by the Pension Protection Act of 2006 (PPA), no benefit restrictions were associated with the 2017 Plan year, and the Plan had a final PPA certified status of "Safe" as of December 31, 2017.
