

cavlo

COMPARES

cavlo Compares is an opportunity for members of the pro AVL community to evaluate gear on their own terms. Managed by Coherent Design, the process allows participants to interact with multiple solutions from the same product category simultaneously.

cavlo Compares is not a contest or a “shootout;” there are no judges nor prizes, just dealers and end users deciding - on their own terms - which product is the best solution for their own application.

cavlo Compares FAQs

- *When/where will cavlo Compares take place?*
 - *cavlo Compares will take place at cavlo Tech Expos.*
- *What types of products will be presented?*
 - *Each cavlo Compares event will feature different product types/categories - the cavlo website has the latest info.*
- *Do we have to exhibit to take part in a cavlo Compares event?*
 - *No, that's not necessary - but exhibitors of that particular Tech Expo will get to present their product at each session.*
- *How do we get to participate?*
 - *About three months before the Tech Expo, Coherent Design & cavlo management will reach out to those manufacturers who fit the selected category type.*
