

DEMOGRAPHIC PROFILE OF CITY BOARDS AND COMMISSIONS

Prepared by the City Secretary's Office

September 26, 2017

The demographics are based on 34 boards and 322 seats. In this count are 6 boards (38 persons) with members outside of the City appointment process who have not completed a CFW application.

- DFW International Airport Board
- Employees' Retirement Fund Board of Trustees
- Metropolitan Area EMS Authority
- Tarrant County 911 Emergency Assistance District
- Fort Worth Transportation Authority
- Community Action Partners

Therefore in actuality the CFW appoints to 34 boards and 284 seats.

Majority of the CFW appointees have completed an application including the demographic questions. The demographic questions were added to the application late 2016. As members are reappointed they are required to update their application. Completing this information is voluntary and a "prefer not to answer" option is available. But again, a small percentage has not completed the demographics portion.

The system generates the gender and ethnicity based on the 34 boards/322 seats. Granicus has not been able to fulfil our request to expand on the demographic options. They only offer gender, disabled, and ethnicity at this time. We have not added disability to our tracking.
