The quote **MUST** also be for an **ENGINEER CERTIFIED BUILDING** with identical materials, quality and features. Most competitors don't sell engineer certified buildings, which means their buildings are NOT built with a level of quality that customers can safely rely on. **PLEASE NOTE:** The competitor price quote must be from a dealer with a physical location and for a building with identical materials, quality and features. MaxSteel will not price match online-only competitors. The quote must have the customer and dealer's name and address (and cannot be hand-written). All price matching is subject to review.
