

SOUTHERN CHESTER COUNTY EMERGENCY OPERATIONS CENTER

Home of Southern Chester County EMS-MEDIC 94

Located at 863 West Baltimore Pike, the Southern Chester County Emergency Operations Center is the home of Southern Chester County EMS MEDIC 94 and Avon Grove Regional Management (AGREM). The building is owned by Penn Township and SCCEMS has a long-term lease for \$1/year for use of the building

The facility features a multi-purpose room with seating for 20 that will serve as a meeting room, training room and emergency operations center. The room also has full video conferencing capabilities and a rear storage room that also serves as a communications hub for the EOC with Chesco 800mhz, VHF and ARES/RACES capabilities.

The crew area includes recliners, TV and a full kitchen. All of the appliances and window treatments in the building were donated by Lowes.

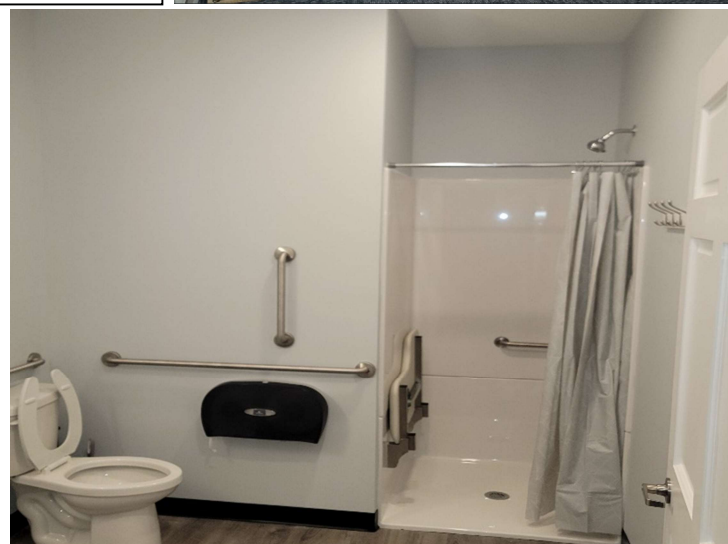

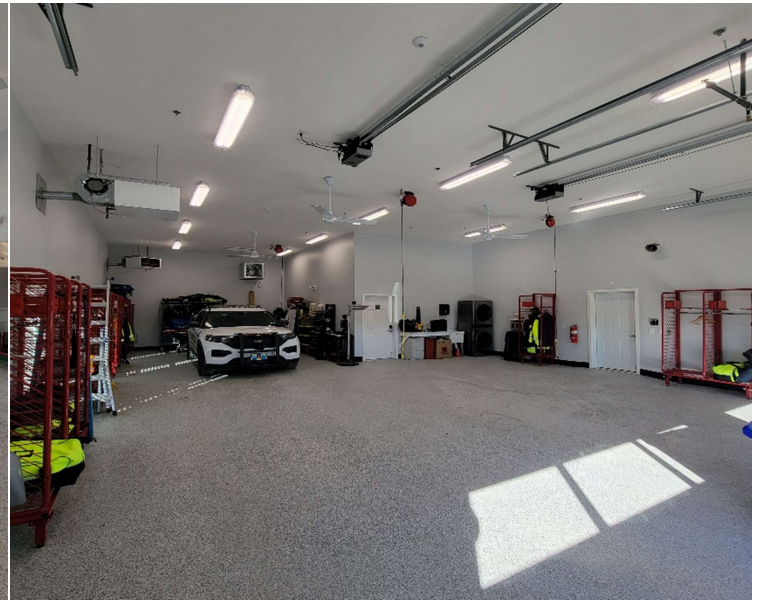

The building features a crew bunkroom as well as a locker room that can be used as additional sleeping space as well as a fitness area for crews.

Thank you to the Oxford Area Chamber of Commerce for the donation funding towards the treadmill for that room.

The facility features two bathrooms. Both rooms are handicapped accessible. The staff bathroom includes a shower stall

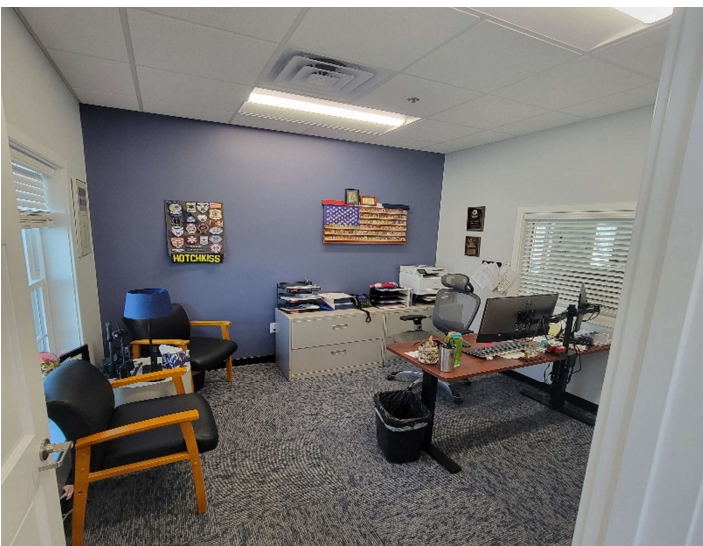

The apparatus bay has housing for 3 of our paramedic units but can flex to 5 units if needed. Ambulances and one fire engine pumper truck can fit in the space. The garage also has a carbon monoxide sensor system and mitigation ventilation fan.

Within the apparatus bay is a secured supply and medication temperature controlled storage room. This will support our blood program freezers and biohazard storage.

In addition to the operations space, there is administrative offices for the Chief Executive Officer as well as the Chief of Operations and EMS Sergeants

A formal dedication ceremony will be held in May of 2025 for the new facility

The construction of this building was made possible by the Penn Township Board of Supervisors with funding from Penn Township, an American Rescue Plan Grant administered by the Chester County Commissioners along with donations and grants provided to Southern Chester County Emergency Medical Services, Inc-MEDIC 94 from
