VOLCANOES

JUNIOR
ADVENTURE
PACK

CHILE, LAND OF VOLCANOES!

Chile is home to more than 2,000 volcanoes! That's more than almost any other country in the world.

Some are snowy and peaceful. Others are active and powerful!

DID YOU KNOW?

Chile has more than 90 active volcanoes.

Geysers and hot springs show us the heat inside the Earth.

Volcanic soil is very rich. It helps grow fruits, vegetables and wine grapes!

Volcanoes are monitored by scientists to help keep people safe.

FAMOUS VOLCANOES OF CHILE

VILLARRICA

La Araucanía Region

An active volcano. You can hike to its crater!

OSORNO

Los Lagos Region

Known for its perfect cone shape.

LÁSCAR

Atacama Desert

One of the highest volcanoes in the world.

EL TATIO

Antofagasta Region

The world's highest geyser field.

LET'S THINK!

Why do you think volcanoes are important for the places around them?

LOOK AROUND YOU!

Do you see mountains or volcanoes near where you live? Draw or write about what they look like!

WHAT IS LAVA?

Lava is hot, melted rock underground. When it comes out of a volcano, it flows down the sides. When lava cools, it turns into solid rock.

WHAT IS PUMICE?

Pumice is a light, bubbly rock that forms when lava cools very quickly. It can float on water!
