Commercial HVAC and Controls

- No capital improvement budget is needed.
- No Bonds to raise
- No taxpayer monies used
- No cash outlays are required.
- No settling for the cheapest equipment.
- No partial upgrades.

Building upgrades can be costly and funds are not just laying around waiting on a purpose. Usually there is a lengthy time and process required to raise these needed funds and it could take years. Well for that reason, AL&P has initiated a funded program especially designed to assist local, state and private educational systems of all sizes across all of North America. We fund the upfront cost of superior technologies, **saving you 40% to 50%**, in energy and maintenance costs. We structure contracts ensuring that your buildings and facilities calculated savings are greater than the program repayments, making you cash flow positive the moment equipment is installed! This initiative that assist school districts upgrade campuses can recapture taxpayer dollars that were spent on older technologies. We have carefully chosen, strategic technology partnerships to primarily upgrade indoor/outdoor lighting, to **full spectrum lighting which instantly heightens the learning experience**, ground/rooftop HVAC systems and building control systems. We also service private schools and universities, hotels, restaurants, hospitals, apartment complexes, non-profit organizations and small businesses with similar programs. Through our finance partners, we have access to over a trillion dollars to cover any project of any size.

Save your assets as a hedge against future uncertainties, or reallocate the saved taxpayer dollars toward other priorities. Let us deliver comprehensive savings while increasing your cash flow today. The process is simple. We complete a free energy audit outlining areas that can be improved, prescribe a solution with identifiable savings that you will immediately receive as a result of our findings. All without creating an additional cost to your operation. Call us or visit our website and sign up for a **free consultation** with one of our qualified consultants.
