GATE/CHECK-IN

THE PASS CODE FOR AGILITY GATE IS 8340.

A running order and an estimated timeline are posted at www.earlyagility.com, This will help you gauge when you will need to be available to walk your course or carry out your volunteer assignment. Please note that this is only an ESTIMATE, and the trial may run considerably faster (or slower), so please allow for this. **I am still trying to figure out times for ISC trials, so bear with me.**

COURSE WALKING: We will run some classes in the walk-walk-run format, with no 5 minute break. Any splits will be shown on agility gate. Any class with walk-run format will have a 5 minute break.

CHECK-IN and MEASURING

At this time, there will not be a VMO. Effective August 1, 2022, all dogs that do not have a height card must be measured by a VMO or by the judge of record prior to the dog's first run that day per Chapter 2, Section 5, Paragraph 5.

As a reminder, leashes can be worn or put in pockets - now part of Chapter 4, section 10. This has been effective since January 1, 2022.

Crating: there will be plenty of space for indoor crating.

Handlers' Responsibilities:

We will need everyone's cooperation to keep things moving. To make sure that this trial runs as smoothly and efficiently as possible, we will use the following procedures:

1. Please be sure to check in on agility gate. If you have problems with agility gate, the gate steward can help you check in.

2. While each dog is running, we will have one dog on the line, one dog on deck, and one dog in the hole. Be sure that you are at the gate, ready to take your place in line. We will not look for you---if you are not there, you may lose your turn to run. Because this is a one-ring trial, there should be no conflicts. If you are running two dogs and we haven't given you enough room between your dogs, you may work with the gate steward to move your dogs, but they must stay in the same order as they appear on the gate, in other words, whichever dog is supposed to run first must still run first.

3. The dog on the line should be ready to run before the dog on course finishes the last obstacle. When the timer tells you to go, begin your run!
