

# ARC Soil™

Insect frass fertiliser

Frass is insect manure. ARC Soil is produced from the accelerated digestion and decomposition of organic matter by the Black Soldier Fly.

## MICRONUTRIENT RICH

Nourishes and improves soil health and boosts plant growth

**CONTAINS CHITIN.** Protects plants from pests

## ENVIRONMENTALLY SUSTAINABLE

Made from food waste diverted from landfill

*Every kg of ARC Soil diverts 6kg of food waste from landfill*

## APPLICATIONS

All plants, fruit trees, lawns, sports fields, horticulture, mine and land rehabilitation

## TYPICAL ANALYSIS

N (Nitrogen)	: 6.4%	C (Carbon)	: 27.1%
P (Phosphorous)	: 1.6%	Mg (Magnesium)	: 8.9%
K (Potassium)	: 0.7%	Ca (Calcium)	: 4.5%
		pH	: 7.7%
