

AU10TIX is an identity management company on a mission to obliterate fraud and make the world a more secure, inclusive place through automated technologies that confidently link physical and digital identities for some of the largest and fastest growing companies in the world.

Our modular portfolio of identity management solutions includes identity verification, document authentication, Know Your Customer and Anti-money Laundering (KYC AML), and electronic credential verification—all which are backed by four decades of experience and powered by cutting-edge technology like AI, machine learning and neural networks.

Leading Innovation and Automation

- ✓ Fully automated identity verification platform for linking physical and digital identities
- ✓ Trusted by blue-chip, high-growth enterprises across several sectors including financial services, cryptocurrency, social media, mobility, and the sharing economy
- ✓ Unique solution for combatting synthetic identity fraud, the fastest growing type of fraud
- ✓ 40 years of experience in identity verification, starting with passenger screening for airport security and border control

Modular SaaS

- ✓ One integration, endless configurations to customize
- ✓ Suitable for starts up, scale ups and global enterprises
- ✓ Elastic, efficient and resilient

Worldwide Operations

- ✓ 150+ employees
- ✓ World-class network of data centers across the globe
- ✓ Coverage for 190+ countries in native languages

END-TO-END IDENTITY INTELLIGENCE

AU10TIX's identity intelligence and R&D efforts are focused on solutions that enable companies to onboard faster, prevent fraud, meet compliance, mandates and, most importantly, establish trust with their customers. The company's proprietary technology, unlike traditional, semi-manual identity verification products returns identity verification results in a matter of seconds, safely meeting the real-time demands of today's physical-digital transactions.
