Community for Positive Aging	Amber Kern-Johnson	(503) 288-8303	Portland	OR	10/16/2025	ERIC & RIEL	<p>Amazing transformation! Tri Phase was great to work with. The change out looks so good and we are thrilled to know that there are energy and cost savings that support our sustainability goals. Thank you for investing in our work and support for older adults.</p> <p>Hi Glen, I wanted to extend our sincere thanks for your support through the Energy Trust of Oregon Small Business Lighting program. It was so exciting to upgrade our many fluorescent panels at the Community for Positive Aging to energy-efficient LEDs yesterday! This project has already made a visible difference on day one, brightening our shared community spaces while reducing our energy use and long-term costs. It's a meaningful step forward in advancing our sustainability goals and creating a more welcoming environment for the older adults and community members we serve. I also wanted to share that Tri Phase Electrical did a great job on the installation and working around our active space. Deepest gratitude to the Energy Trust of Oregon for making this improvement possible. This investment in community-based organizations like ours helps ensure that sustainability and energy efficiency are accessible to everyone. With appreciation, Amber</p>
