

# Texas Forensic Associates

*Veritas Abs Indico*

**“Truth Through Evidence”**

*Professionals Training Professionals*

## ABOUT THE COMPANY

Texas Forensic Associates is a consortium of professional criminal investigators, crime scene investigators and forensic scientists dedicated to providing hands-on training and education in forensic investigation. The core of the training staff is Texas Ranger (ret.) Rudy Flores and Sergeant (ret.) Nick Webb. They bring over 60 years of combined law enforcement experience to the classroom. Staff members are senior investigators, forensic scientists and forensic practitioners from various city, county, state and federal law enforcement agencies.

## WHO WE ARE

Texas Ranger (ret.) Rudy Flores started his career in 1982, serving as a deputy sheriff, and municipal police officer before joining the Texas Department of Public Safety, where he served as a Trooper, Sergeant and Texas Ranger. He holds a Bachelor of Science degree from Excelsior College and is a graduate of the Leadership Command College at Sam Houston State University. He served as a member of the Sheriff's Association of Texas Cold Case Review Team and led the Texas Ranger Company "B" Major Crimes Response Team. Rudy retired in 2015. He continues to teach and consult on major cases.

Sergeant Nick Webb retired with over 20 years of service as a municipal police officer. Nick's last position was as the Palestine (Texas) Police Department Patrol Division Commander (Lieutenant). He holds an Associates of Science degree from Trinity Valley Community College and is a graduate of the FBI National Academy. He returned to law enforcement in 2010 as an investigator at the Henderson County (Texas) Sheriff's Office, retiring in 2015. He continues to teach and consult on major cases.

## ABOUT THE INSTRUCTION

Programs are taught from a hands-on point of view from active practitioners. They are intended for law enforcement officers, crime scene investigators, evidence technicians, medicolegal death investigators, and crime laboratory personnel who investigate, identify, collect, and preserve evidence of violent crimes. The goal is to provide the information needed to ensure critical pieces of evidence are collected, fewer cases are jeopardized by mishandled evidence and more cases are solved through the proper use of advanced investigative techniques. The information obtained will enhance a participant's ability to make sound investigative decisions. Participants apply newly acquired knowledge to practical exercises. Courses are granted appropriate credit through the host agency or academy.
