

# JOIN THE TEAM!

## **SYSTEM ENGINEERING**

Plan, design and document. Review customer requirements, capability requirements, and work within a team with stakeholders to deliver a successful product.

## **SOFTWARE ENGINEERING**

Design, develop and deploy software. Common coding languages we look for are C, C++, C#, Java, Python, and PHP. Abiding to coding standards is imperative.

## **IT ADMIN CYBERSECURITY**

Work to maintain digital infrastructure, troubleshoot, quality test items, encrypt data and ensure a secure network. Some technologies used are Red Hat, Linux, AWS, Azure, and Windows OS.

## **CONFIGURATION MANAGERS**

Develop, implement and coordinate plans. More specifically System Engineering skills with requirements gathering, testing, design, planning and risk management.

**WOOD Consulting Services, Inc.** is an award-winning technology and strategic solutions firm delivering cutting-edge mission outcomes and results. We prioritize career development and recruit talented professionals to create innovative products and solutions powering the future for intelligence, defense, and civilian clients.

## **BENEFITS OVERVIEW**

- **Medical, Dental, and Vision Provided by CareFirst HSA & POS options**
- **FSA**
