I hope you will enjoy many hours of fun exploring the various ways to use my designs. These have been designed with the intention that the user has previous tea bag folding experience or you have watched my YouTube Tea Bag Tile - Tutorial #3 - <https://youtu.be/GnaXZCi7gPY> where you will find instructions for the Basic Triangle Fold and the Basic Square Fold in the video. Be sure to explore other tea bag folds. You will be amazed at the variety of designs you get with one tile!

I have designed each two inch tile with a coordinating background paper. Download the PDF, print out the page and cut out each tile. Quality of print is dependent on printer. Please feel free to take to your local copy store to print toner quality prints.

You have permission to print as many designs as you want, to make as many cards as you like for your pleasure, but you cannot distribute the designs by copying or mass producing the printed pages, or sell the cards or items you create from the designs. Digital downloads may not be resold. Digital prints may not be sold. Digital downloads are for personal use only and not shared. You can, however, share my website and my video with your friends so they can go to the site and download the PDF themselves.

You may submit your designs to magazines with my permission as long as you mention the name MyCraftBasket.com.

You may write me at MyCraftBasket@aol.com. I'd love to hear from you
