I'm so glad you've joined the MyCraftBasketStudio YouTube community! Thank you for subscribing and joining me on this creative journey!

To celebrate 100 subscribers I have created three free PDFs:

Roses in Paris Instructions,
Roses in Paris Collage and
Roses in Paris Sample Pictures.

Step 1:

Start with an 11" x 8½" piece of cardstock in the color of your choice. Use the Layout and Measurements Template (page 3) to cut and score the cardstock as shown.

Print Roses in Paris Sayings (page 4)

(Quality of print is dependent on printer. Please feel free to take to your local copy store to print toner quality prints. Digital downloads may not be resold, and printed copies may not be sold. Downloads are for personal use only and may not be shared or distributed. However, you're welcome to share my website — MyCraftBasket.com — so your friends can visit and download the PDF themselves.)

Step 2:

Do not trim off the white border — it's needed to follow the template measurements accurately. Use the “Layout and Measurements Template” to cut the collage sheet into sections. Once each section is cut, you can then trim each piece to fit your project as needed. Watch the video to see how I worked through placement challenges, such as upside-down wording or choosing which side of a piece to feature, depending on preference.

Once you've selected, trimmed, corner rounded or angled your pieces, you can distress the edges with the ink of your choice (if desired), then glue them in place.

See the Roses in Paris Sample Pictures PDF for decorating ideas.

Ways to use the Rose in Paris Sayings sheet: you can print out on cardstock of your choice or print on paper and distress with ink of your choice. You can tear or cut them out and use glue to adhere to your projects.

My goal is always to inspire, teach, and share design ideas that help your projects feel intentional, balanced, and beautiful. Whether you're here for tutorials, unveilings, or just a spark of inspiration.
