I hope you enjoy countless hours of creativity as you explore all the fun ways to use my Tea Bag Tile designs! These tiles are crafted with the assumption that you have some experience with tea bag folding, or that you've already watched Tea Bag Tile Tutorial #3 on YouTube (link above), where I demonstrate how to create the Basic Triangle Fold and Basic Square Fold.

Be sure to explore other tea bag folds as well — you'll be amazed by the variety of beautiful designs you can create from just one tile!

Each 2-inch tile comes with a coordinating background paper for easy integration into your projects. Simply download the PDF, print the page, and cut out each tile. Note that print quality may vary depending on your printer; for the best results, you may wish to take the file to your local copy shop for high-quality toner prints.

#### Usage Guidelines

You are welcome to print as many copies of these tiles as you like for personal use, such as making cards or other craft projects. However, you may not distribute or mass-produce the designs for resale, and you cannot sell items made with these designs. Digital downloads are for personal use only and should not be shared or resold.

Feel free to share my website and videos with friends so they can download the designs themselves!
