#### **Independent Auditor's Report on Financial Statements**

City Council City of Newark, Texas

#### **Report on the Financial Statements**

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Newark, Texas, as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the City of Newark, Texas' basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Newark, Texas, as of September 30, 2024, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Newark, Texas and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City of Newark, Texas' ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud
  or error, and design and perform audit procedures responsive to those risks. Such procedures include
  examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that
  are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the City of Newark, Texas' internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about the City of Newark, Texas' ability to continue as a going concern for a
  reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Budgetary Comparison Schedule – General Fund, Texas Municipal Retirement System Schedule of Changes in Net Pension Liability and Related Ratios, Texas Municipal Retirement System Schedule of Contributions, and Texas Municipal Retirement System Schedule of Changes in Total OPEB Liability and Related Ratios, on pages 5 through 12 and 40 through 46 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Newark, Texas' basic financial statements. The accompanying comparative schedule of revenues and expenditures – general fund and comparative statement of revenues and expenses – water and sewer fund, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 21, 2025, on our consideration of the City of Newark, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The

purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City of Newark, Texas' internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering City of Newark, Texas' internal control over financial reporting and compliance.

Respectfully submitted,

MWH Group, P.C.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

#### **USING THIS ANNUAL REPORT**

As management of the City of Newark, we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2024. The information provided here should be used in conjunction with the basic financial statements.

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

#### **FINANCIAL HIGHLIGHTS**

- At September 30, 2024, government-wide total assets and deferred outflows exceeded total liabilities and deferred inflows by \$4,663,337 (net position), an increase of \$283,670 over the prior period.
- Of the total government-wide net position, \$1,150,822 is unrestricted and may be used to meet the
  government's ongoing obligations to its citizens and creditors.
- Total Governmental Funds ending fund balance is \$1,003,036. The unassigned General Fund balance is \$687,773 or 92% of General Fund operating expenditures.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

We intend this discussion and analysis to serve as an introduction to the City of Newark's basic financial statements. The City's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

#### Reporting the City as a Whole - Government-wide Financial Statements

#### The Statement of Net Position and the Statement of Activities

The government-wide financial statements are designed to provide readers with a broad overview of the City's finances in a manner similar to a private-sector business.

The Statement of Net Position (page 13) presents information on the City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities (page 14) presents information showing how the City's net position changed during the most recent fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused compensated absences). Capital grant funds are reported as revenues in the Statement of Activities.

The City provides two types of activities - Governmental and Business-type activities.

- Governmental activities Most of the City's basic services are reported here, including animal control, code enforcement and inspection, library, municipal court, parks, police, public works, and general administration. Property taxes, sales taxes, franchise fees, permit revenues, and municipal court fines finance most of these activities. Governmental type activities also include the City's three component units, the Newark Cultural Educational Facilities Finance Corporation, the Newark Higher Education Finance Corporation, and the Newark Municipal Development District, which are legally separate but financially accountable to the City.
- Business-type Activities The City charges a user fee to customers to help cover all or most of the cost
  of certain services it provides. The City's water and sewer system is reported here.

#### **Reporting the City's Most Significant Funds**

#### **Fund Financial Statements**

The fund financial statements begin on page 15 and provide detailed information about the most significant funds, not the City as a whole. The City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements; however, the City Council may establish other funds to help it control and manage money for particular purposes. The City's kinds of funds - *governmental and proprietary* - use different accounting approaches.

- Governmental funds Most of the City's basic services are reported in governmental funds, which focus on how money flows into and out of the funds and the balances left at the end of the year that are available for spending. These funds are reported using the current financial resources measurement focus and are accounted for using the modified accrual method of accounting, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. We describe the relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation at the bottom of the fund financial statements.
- Proprietary funds When the City charges customers for the services it provides, these services are
  generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities
  are reported in the Statement of Net Position and the Statement of Activities. In fact, the City's Water and
  Sewer Fund are the same as the business-type activities we report in the government-wide statements,
  but we provide more detail and additional information, such as cash flows, for proprietary funds.

#### **Notes to Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements begin on page 22 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

The City's net position is as follows:

#### STATEMENT OF NET POSITION

	Government	al Activities	Business-ty	pe Activities	Total			
	2024	2023	2024	2023	2024	2023		
Current & other assets	\$1,192,317	\$1,178,128	\$ 2,911,724	\$ 497,863	\$ 4,104,041	\$ 1,675,991		
Capital assets, net	621,109	428,461	3,072,795	3,015,340	3,693,904	3,443,801		
Total assets	1,813,426	1,606,589	5,984,519	3,513,203	7,797,945	5,119,792		
Total deferred outflow								
of resources	11,337	8,718	6,687	4,151	18,024	12,869		
Current liabilities	113,061	133,804	2,580,085	157,857	2,693,146	291,661		
Long-term liabilities	65,000	85,000	364,254	365,018	429,254	450,018		
Net pension & OPEB liabilities	15,935	4,848	9,399	2,309	25,334	7,157		
Total liabilities	193,996	223,652	2,953,738	525,184	3,147,734	748,836		
Total deferred inflow								
of resources	3,081	2,817	1,817	1,341	4,898	4,158		
Net position:								
Net investment in								
capital assets	536,109	324,461	2,664,985	2,615,586	3,201,094	2,940,047		
Restricted	311,421	373,789	_,;;;,;;	_,;;;;;;	311,421	373,789		
Unrestricted	780,156	690,588	370,666	375,243	1,150,822	1,065,831		
Total net position	\$1,627,686	\$1,388,838	\$ 3,035,651	\$ 2,990,829	\$ 4,663,337	\$ 4,379,667		

At September 30, 2024, the City had total assets of \$7,797,945 which included capital assets of \$3,693,904. These capital assets represent 47% of the City's total assets. The City uses these capital assets to provide services to the City's citizens; consequently, these assets are not available for future spending. The City's total liabilities increased \$2,398,898 or 320% due to the increase in unearned revenues resulting from funding received for Rolling V development and the NISD water tank projects in the amounts of \$1,525,903 and \$891,000, respectively.

The City's net position (assets plus deferred outflows less liabilities and deferred inflows) increased \$283,670 a 6% increase in net position during the fiscal year. Restricted net position is \$311,421 and represents net resources subject to external restrictions on how the funds may be used. Unrestricted net position totals \$1,150,822 or 25% of total net position and may be used to meet the government's ongoing obligations to its citizens and creditors.

#### **Analysis of City's Operations**

An analysis of the government-wide changes in net position is as follows:

#### STATEMENT OF CHANGES IN NET POSITION

	Government	al Activities	Business-ty	pe Activities	Totals

Interest on long-term debt	4,640	5,581	15,407	15,407	20,047	20,988		
Water & sewer	-	-	627,973	637,938	627,973	637,938		
Total expenses	814,388	655,683	643,380	653,345	1,457,768	1,309,028		
Transfers	(21,958)	(21,958)	21,958	21,958				
Change in net position	\$ 238,848	\$ 204,705	\$ 44,822	\$ (5,831)	\$ 283,670	\$ 198,874		

Fiscal year 2024 governmental activities revenues (before transfers) increased \$192,848 or 22% over 2023 governmental activities revenues. Operating Grants increased \$163,338 or 940%. The City benefitted from significant grants and stipends from Texas Parks and Wildlife, Wise County and ARPA in the amounts of \$71,077, \$57,981 and \$49,964, respectively. Other sources of revenue included property taxes of \$407,872, sales taxes of \$263,062, and fees & fines of \$141,309. Interest earned on the City's investments of \$28,898 represented an increase of \$18,380 or 175% in 2024 due to higher interest rates.

The City continues to closely monitor its governmental operating expenses during the fiscal year. Total governmental operating expenses increased \$158,705 or 24% from 2023 to 2024. General government expenses increased \$157,687 or 53%. Expenses were higher in the following categories: Admin payroll of \$180,677 (increased \$23,322) consulting and audit fees of \$69,800 (increased \$69,800 as no fees were paid in the prior year) and the City's portion of the park improvement expenses of \$49,964 (increased \$36,954). Public Safety operating expenses increased \$41,700 or 32%, mainly driven by health insurance increase of \$9,243 and fire department expenses of \$5,000. Public Works expenses decreased by \$38,534 or 19%, due to lower street maintenance expenses of \$19,093 or 40%.

Fiscal year 2024 business-type activities revenues increased \$40,688 or 7% from 2023 to 2024 driven by higher charges for services of \$69,289 or 12%. Reduced grant funding offset the gains made by the service charges by \$28,601 or 50% compared to prior year. Business-type activities expenses were comparable to 2023, with a slight decrease or \$9,965 or 2%.

#### **GOVERNMENTAL FUND ANALYSIS**

Governmental Funds - The focus of the City's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements; in particular, unreserved fund balance may serve a measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year the City's governmental funds reported a combined ending fund balance of \$1,003,036, which is a decrease of \$28,590 or 3% from the prior year. The components of the governmental fund balances are as follows:

	As of September 30,									
	2	2024		2023						
Non-spendable prepaid expenses	\$	3,842	\$	2,343						
Restricted										
Debt service		34,992		33,724						
Municipal Development	2	276,429		340,065						
Total restricted	- (	311,421		373,789						
Unassigned	6	687,773		655,494						
Total fund balance	\$1,0	003,036	\$1	,031,626						

Proprietary funds - The City's proprietary fund statements (Water and Sewer Fund) provide the same type of information found in the government-wide financial statements, but in more detail. The unrestricted net position of the water and sewer fund at year end totaled \$370,666, which represents a decrease to the net position of the fund of \$4,577 or 1.2% from the prior period.

#### **General Fund Budgetary Highlights**

During the fiscal year, the City Council made budgetary amendments increasing General Fund revenues in the amount of \$180,072 and decreasing expenditures in the amount of \$84,023. The amended budget resulted in a budget deficit of \$97,693. Actual revenues were unfavorable to budgeted revenues by \$85,788 and actual expenditures were favorable to budgeted expenditures by \$67,260.

A General Fund budget - actual summary for 2024 is as follows:

	Α	mended			
	E	Budget	Actual	\	/ariance
Revenues					
Taxes	\$	586,885	\$ 586,885	\$	-
Municipal court fines & fees		4,597	6,497		1,900
Licenses & permits		43,895	43,895		-
Charges for services		15,146	2,480		(12,666)
Grants & donations		217,430	114,020		(103,410)
Other revenues		90,336	90,336		-
Investment income		-	28,388		28,388
Total revenues	\$ 958,289		\$ 872,501	\$	(85,788)

General Fund budget – actual summary continued:

	Δ	mended			
		Budget	 Actual	V	ariance
Expenditures					
Administration	\$	468,292	\$ 434,666	\$	33,626

Excess of revenues over					
(under) expenditures	\$	(97,693)	\$ (116,221)	\$	(18,528)

#### **PENSIONS AND OPEB**

The City is committed to providing retirement programs that are fair to both employees and taxpayers and that can be sustained over the long term.

Effective for fiscal year 2015, Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" created specific reporting requirements for pensions that are different than that used for funding purposes. Both valuations are important as the reporting valuation provides a rigorous standard measure that can be used to compare the City's pension liabilities to other governments from around the nation. The funding valuation is important as the actuarial methods used, including strategies for repaying any unfunded actuarial accrued liabilities combined with the City's history of making those contributions provides insights regarding the City's commitment to and the effectiveness of its funding strategy. Information contained in the financial statements themselves including the first schedule of Required Supplementary Information (RSI), Schedule of Changes in Net Pension Liability and Related Ratios, is based on the reporting valuation. The second schedule in the RSI, Schedule of Contributions, is based on the funding valuation. On a reporting basis, The City's financial statements reflect a net pension liability as of September 30, 2024, of \$20,323 which is 4.97% of the City's annual covered payroll of \$409,237. The City's net pension liability increased \$23,388 from September 30, 2023 to September 30, 2024.

Effective for fiscal year 2018 the City adopted Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (OPEB). The City's OPEB liability as of September 30, 2024, was \$5,011, an increase of \$919 from September 30, 2023.

#### **CAPITAL ASSETS**

The City's investment in capital assets as of September 30, 2024, amounts to \$3,693,904 (net of depreciation). The investment in capital assets includes land, construction in process, buildings, equipment, and infrastructure. Infrastructure includes streets, drainage, water, and sewer systems. Capital assets added in 2024 include Construction in process for the park of \$180,848, bathroom improvements at the park of \$15,330, asphalt for streets of \$29,948 and a dump trailer of \$10,915. The City's capital assets, net of accumulated depreciation, are as follows:

	Governmental Activities					Business-ty	ctivities	Totals				
		2024 2023 2		2024 2023				2024		2023		
Land	\$	71,549	\$	71,549	\$	4,400	\$	4,400	\$	75,949	\$	75,949
Construction in process		200,598		19,750		271,299		32,100		471,897		51,850

Additional information on the City's capital assets can be found in Note 4.

#### **DEBT ADMINISTRATION**

In October 2023, the City entered into a \$42,792 note payable to Government Capital Corporation for the purchase of a vehicle. The note carries an interest rate of 6.35% and is payable in 5 annual payments of \$10,256. The note matures in 2028. Outstanding long-term debts are as follows:

	Governmental Activities					usiness-typ	e A	ctivities	Totals				
		2024	20	023		2024	2023			2024		2023	
Financed purchase	\$	-	\$	-	\$	48,810	\$	11,754	\$	48,810	\$	11,754

Additional information on the City's long-term debts can be found in Note 7.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET**

Budgeted General Fund revenues for fiscal year 2025 are \$1,003,429, a \$180,580 decrease from final 2024 budgeted revenues. The tax rate applied in the 2025 budget is \$0.400620 cents per \$100 of valuation, an increase of \$0.017399 cents per \$100 valuation from the 2024 tax rate.

Budgeted General Fund expenditures for fiscal year 2025 are \$904,113. Of this amount, wages for administration, code enforcement, police contract services, library, and public works represent \$143,768, \$68,640, \$75,000, \$24,000 and \$71,843, respectively. The net budget has a surplus of \$99,316 in the General Fund for fiscal year 2025.

Water and Sewer Fund 2025 budgeted revenues are \$2,796,035, an increase of \$2,158,521 over the fiscal year 2024 actual operating revenues as the City received \$2,500,000 in funding from Northwest ISD for tank funding and the Rolling V developer. Budgeted Water and Sewer Fund expenditures total \$2,895,351. Of this amount, expected costs include \$1,557600 for the Rolling V development project, \$700,435 for capital improvements, \$223,766 for utility wages, \$100,000 for water and sewer system expenses, \$60,000 for electric. The net budget reflects a deficit of \$99,316 in the Water Sewer Fund for fiscal year 2025.

#### **REQUEST FOR INFORMATION**

This financial report is designed to provide our citizens, customers, investors, and creditors with a general overview of the City of Newark. If you have questions about this report or need additional information, contact the City Secretary at: 209 Hudson Street, Newark, TX 76071 or at 817-489-2201.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED SEPTEMBER 30, 2024

Net change in fund balances - total governmental funds (Exhibit A-5)

\$ (32,389)

Amounts reported for governmental activities in the statement of activities (Exhibit A-2) are different because:

Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the costs of those assets are allocated over their useful lives as depreciation expense. The net difference between the two is as follows:

Capital outlay during the year \$ 242,215

Depreciation expense during the year (49,567) 192,648

Because property tax receivables will not be collected for several months after the City's fiscal year ends, they are not considered 'available' revenues and are deferred in the governmental funds. Deferred revenues changed this year by:

71,099

Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets.

19,000

Some expenses in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:

 Accrued interest
 265

 Compensated absences
 (3,043)

 Pension liability
 (8,896)

 OPEB liability
 164
 (11,510)

Change in net position of governmental activities - statement of activities

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

#### NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Newark, Texas (the City) was incorporated in 1951. The City operates under a Council-Manager form of government, following the laws of a Home Rule City as defined by the State of Texas. The City provides the following services: animal control, library, code enforcement and inspection, municipal court, parks, police, public works, sanitation and general administrative services. In addition, the City owns and operates a water and sewer system.

The City's financial statements are prepared in accordance with generally accepted accounting principles accepted in the United States of America (GAAP) applicable to local governments. GAAP for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB). The more significant accounting policies of the City are discussed below:

#### A. REPORTING ENTITY

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the City of Newark (the primary government). The City has three component units (separately administered organizations that are controlled or dependent on the City); the Newark Cultural Educational Facilities Finance Corporation (NCEFFC), the Newark Higher Education Finance Corporation (NHEFC) and the Newark Municipal Development District (MDD).

NCEFFC was created in April 2008 primarily for the purpose of providing funds to borrowers to enable such borrowers to acquire, construct, renovate or otherwise improve facilities. NCEFFC does not have any assets or liabilities. See Note 6 related to conduit debt.

NHEFC was created in April 2014 primarily for the purpose of providing financing of "educational facilities" or "housing facilities" as these terms are defined in the Texas Education Code. NHEFC does not have any assets or liabilities. See Note 6 related to conduit debt.

The Newark Municipal Development District (MDD) is governed by a board of directors, all of whom are appointed by the City Council of the City of Newark and any of whom can be removed from office by the City Council at its will. The MDD was formed in the state of Texas as a non-profit municipal development district under the laws passed by the Texas Legislature in 2005 which authorized the establishment of municipal development districts. The purpose of the MDD is to promote development within the City of Newark. Separate financial statements of the MDD can be obtained from the City's administrative offices. The MDD began collecting sales tax in October 2017.

#### B. BASIC FINANCIAL STATEMENTS - GOVERNMENT-WIDE STATEMENTS

The City's basic financial statements include both government-wide (reporting the City as a whole) and fund financial statements (reporting the City's major funds). Both the government-wide and fund financial statements categorize primary activities as either governmental or business type. The City's animal control, library, code enforcement and inspection, municipal court, parks, police, public works, and general administrative services are classified as governmental activities. The City's water and sewer services are classified as business-type activities.

In the government-wide Statement of Net Position governmental activities are presented on a consolidated basis and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The City's net position is reported in three parts - invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. The City first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net costs of each of the City's functions (general government, public safety, culture, recreation and public works). The functions are also supported by general government revenues (property, sales and franchise taxes).

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

The Statement of Activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues must be directly associated with the function (police, inspection). Operating grants include operating-specific and discretionary grants while capital grants reflect capital specific grants. Developer contributions for public works infrastructure are included in capital grants.

The net costs (by function) are normally covered by general revenue (property, sales, franchise taxes).

The City does not allocate indirect costs.

This government-wide focus is more on the sustainability of the City as an entity and the change in the City's net position resulting from the current year's activities.

#### C. BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The financial transactions of the City are reported in individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

The following fund types are used by the City.

#### 1. Governmental Funds:

The focus of the governmental fund's measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the City:

General Fund - The General Fund is the general operating fund of the City. It is used to account for all financial resources not accounted for in other funds.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of financial resources for the payment of principal, interest and related costs on general long-term debt paid primarily from taxes levied by the City. The fund balance of the Debt Service Fund is reserved to signify the amounts that are restricted exclusively for debt service expenditures.

#### 2. Proprietary Funds:

The focus of the proprietary fund's measurement is upon determination of operating income, changes in net position, financial position, and cash flows. The generally accepted accounting principles applicable are those similar to business in the private sector. The following is a description of the proprietary funds of the City:

Water and Sewer - The Water and Sewer Fund is used to account for the operation of the City's water and sewer system for which a fee is charged to external customers for goods and services and the activity is (a) financed with debt secured by a pledge of the net revenues and (b) has the requirement that the cost of providing services, including capital costs, be recovered by user fees and charges.

The City does not have any fiduciary funds.

#### D. MEASUREMENT FOCUS/BASIS OF ACCOUNTING

Measurement focus refers to what is being measured; basis of accounting refers to when revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. Basis of accounting related to the timing of the measurements made, regardless of the measurement focus applied.

- Government-wide financial statements and fund financial statements for proprietary funds are
  presented using the economic resources measurement focus and the accrual basis of accounting.
  The economic resources measurement focus means all assets and liabilities (whether current or
  non-current) are included on the statement of net position and the operating statements present
  increases (revenues) and decreases (expenses) in net position. Under the accrual basis of
  accounting, revenues are recognized when earned and expensed are recognized at the time the
  liability is incurred.
- 2. Governmental fund financial statements are presented using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual, i.e. both measurable and available. "Measurable" means the amount of the transaction can be determined and "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (typical within 60 days after year end). Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred. The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized only when payment is due.

#### 3. Revenue Recognition:

The City considers property, sales and franchise taxes as available if collected within 60 days after year end. All other governmental revenues are recognized when received.

#### 4. Restricted Resources:

When an expense is incurred for purposes for which both restricted and unrestricted resources are available, the City first applies restricted resources.

#### 5. Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles to local governments in the United States of America requires management and those charged with governance to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### E. FINANCIAL STATEMENT AMOUNTS

#### 1. Cash and Cash Equivalents:

The City has defined cash and cash equivalents to include cash on hand, demand deposits and certificates of deposit which have maturities of one year or less.

#### 2. Taxes:

Property tax is levied each October 1 on the assessed (appraised) value as of the prior January 1 for all real and personal property located in the City. Taxes are due October 1, the levy date, and are delinquent after the following January 31. Property taxes are recorded as receivables in the period they are levied and available.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

For governmental fund financial reporting, delinquent taxes estimated not to be available are treated as deferred revenues at the time the taxes are assessed.

#### 3. Prepaid Expenses:

Prepaid expenses represent payments made by the City in the current year to provide services occurring in the subsequent year.

#### 4. Capital Assets:

Capital assets purchased or acquired with an original cost of \$1,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, or improvements and other capital outlays that significantly extend the useful lives of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation is provided on the straight-line basis over the following estimated useful lives:

Buildings 20-40 years
Equipment 3-15 years
Water & Sewer system 25-40 years

#### 5. Interfund Receivable and Payables:

Any residual balances outstanding between the governmental funds and business type funds are reported in the government-wide statement of net position as "interfund receivables."

#### 6. Transfers Between Funds:

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

#### 7. Compensated Absences:

The City accrues accumulated unpaid vacation time when earned by the employee. The noncurrent portion (the amount estimated to be used in subsequent years) is maintained separately and represents a reconciling item between the fund and government-wide presentations.

#### 8. Deferred Outflows of Resources:

The City reports decreases in net assets that relate to future periods as deferred outflows of resources in a separate section of its government-wide statement of net position. Deferred outflows of resources reported in this year's financial statement include (1) a deferred outflow of resources for contributions made to the City's retirement and OPEB plans between the measurement date of the net pension liabilities from the plan and the end of the City's fiscal year, (2) deferred outflows of resources related to differences between pension and OPEB expected and actual experience, and (3) deferred outflows of resources related to differences between projected and actual pension plan investments.

The deferred outflows for pension and OPEB contributions will be recognized in the subsequent fiscal year. The deferred outflows related to expected and actual experience will be amortized to pension expense over a period of 6.02 years; the deferred outflows related to projected and actual earnings will be amortized to pension expense over a period of 5 years.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

#### 9. Deferred Inflows of Resources:

The City's statement of government-wide net position reports a separate section for deferred inflows of revenues. This separate financial statement element reflects an increase in net assets that applies to a future period(s). Deferred inflows reported in this year's financial statements include deferred inflows of resources related to differences in pension and OPEB assumption changes. The deferred inflows related to assumption changes will be amortized to pension expense over a period of 6.02 years.

#### 10. Pensions:

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and additions to/deductions from TMRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

#### 11. Equity Classifications:

#### Government-wide Statements

Equity is classified as net position and displayed in three components:

- a. Invested in capital assets, net of related debt Consists of capital assets net of accumulated depreciation and reduced by outstanding balances of any bonds, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. Any outstanding debt is reduced by any unspent debt proceeds at the end of the fiscal year before the reduction discussed above.
- b. Restricted net assets Consists of net assets with constraints placed on the use by either (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets All other net assets that do not meet the criteria of "restricted" or "invested in capital assets, net of related debt."

#### Fund Statements

Governmental fund equity is classified as fund balance. Fund balance is further categorized as nonspendable (prepaid expenses), restricted (by parties outside of the government or by enabling legislation), committed (by City Council ordinance or resolution) and unassigned.

#### 12. Bad Debts:

Bad debts in the proprietary fund are considered immaterial, therefore the City uses the direct write-off method to record bad debts. The City anticipates ultimately collecting 100% of delinquent property taxes, therefore there is no allowance for delinquent property taxes in the government-wide financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

#### 13. Operating Revenues & Expenses:

The City's proprietary fund distinguishes between operating and nonoperating revenues and expenses. Operating revenues and expenses of the City's Water and Sewer Fund consist of charges for services, connection fees and the costs of providing those services, including depreciation and excluding interest cost. All other revenues and expenses are reported as nonoperating.

#### F. BUDGETS AND BUDGETARY ACCOUNTING

The City follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. Prior to September 1, the City Secretary submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them.
- b. Public hearings are conducted to obtain taxpayer comments.
- c. Prior to October 1, the budget is legally enacted through the passage of an ordinance.
- d. Budgets for the General Fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).
- e. Unused appropriations for all of the above annually budgeted funds lapse at the end of the fiscal year.

For the fiscal year ending September 30, 2024, no department expenditures exceeded appropriations.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

#### **NOTE 2. DEPOSITS**

At September 30, 2024, the carrying amount of the City's cash accounts was \$3,871,107, made up of petty cash of \$600 and \$689,833 held in checking accounts at a local financial institution. The City did not own any investments at September 30, 2024.

#### Deposit and Investment Risk Disclosures:

- (1) Credit Risk Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of an investment. The City does not currently own any investments and, therefore, is not exposed to credit risk.
- (2) Concentration of credit risk This is the risk of loss attributable to the magnitude of the City's investment in a single issuer. The City does not currently own any investments and, therefore, is not exposed to concentration of credit risk.
- (3) Interest rate risk This is the risk that changes in interest rates will adversely affect the fair value of an investment. The City does not currently own any investments and, therefore, is not exposed to interest rate risk.
- (4) Custodial risk Custodial credit risk for deposits is the risk that, in the event of the failure of depository financial institution, the City will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of outside parties.

At September 30, 2024, the City's bank balances (per bank) totaled \$3,887,615. All of the bank balances were covered by federal depository insurance or collateral provided by the depository financial institution. The City was not exposed to custodial credit risk at September 30, 2024. Securities pledged by the City depository institution consist of the following:

SECURITY	PAR		
SBA 510112V	\$ 544,807	\$	548,473
GNMA 17 56 AV	\$ 1,288,415	\$	1,257,364
FHLMC 4153 KG	\$ 982,253	\$	901,001

Rapid City SD	\$ 970,000	\$	892,468
Grandview TX ISD bond	\$ 265,000	\$	263,002

#### **NOTE 3: PROPERTY TAX**

Property tax is levied each October 1 on the assessed (appraised) value as of the prior January 1 for all real and personal property located in the City. Taxes are due October 1, the levy date, and are delinquent after the following January 31.

At the fund level property taxes are recorded as receivables and deferred revenues at the time the taxes are assessed. Revenues are then recognized as the taxes are collected.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

**NOTE 4: CAPITAL ASSETS** 

Capital asset activity for the fiscal year ended September 30, 2024, is as follows:

Governmental Activities:	Beginning Balance		Purchases		Retirements & Transfers		Ending Balance

Depreciation expense was charged to Business-Type Activities as follows:

Water & Sewer	\$ 224,536
Total depreciation expense	\$ 224,536

#### **NOTE 5: INTERFUND TRANSFERS**

During the fiscal year, the Debt Service Fund transferred \$45,863 to the Water and Sewer Fund to pay for one-half of the annual bond principal and interest payments related to the Series 2008 and 2013 Certificates of Obligation.

#### **NOTE 6: CONDUIT DEBT**

Conduit debt obligations are certain limited-obligation debt instruments issued by a local governmental entity for the express purpose of providing capital financing for a specific third party that is not part of the issuer's financial reporting entity. Although conduit debt obligations bear the name of the governmental entity, the issuer has no obligation for such debt beyond the resources provided by the loan with the third party on whose behalf they are issued.

The City's component units, the Newark Cultural Educational Facilities Finance Corporation (NCEFFC) and Newark Higher Education Finance Corporation (NHEFC), have entered into multiple conduit loan agreements with different entities and their lenders. Neither the faith and credit or taxing power of the City is pledged to the payment of the notes held by these entity's lenders. The current transactional structure of the agreements is that the entities make their loan payments directly to their lenders and NCEFFC and NHEFC; the City does not handle any monetary transactions on behalf of either entity.

#### **NOTE 7: LONG-TERM DEBT**

The following is a summary of the changes in long-term debt for the year ended September 30, 2024.

	eginning alances	Ne	ew Debt	Rep	payments	Ending Balance	Current Portion
Governmental activities:							
2008 Tax & revenue certificates of obligation	\$ 104,000	\$	-	\$	19,000	\$ 85,000	\$ 20,000

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

#### Governmental activities:

#### Certificates of Obligation:

Combination Tax and Revenue Certificates of Obligation, Series 2008 - The certificates are payable from an ad valorum tax to be levied by the City and bear interest at 4.5%. The certificates mature on or after June 15, 2019, can be redeemed prior to their maturity on December 15, 2018, or any date thereafter. The certificates require semi-annual payments with the final payment due in June 2028.

Annual debt service requirements for governmental activities are as follows:

Year	Р	Principal		nterest	Total		
2025		20,000		4,063	 24,063		
2026		21,000		3,107	24,107		
2027		21,000		2,103	23,103		
2028-2032		23,000		1,099	24,099		
Total	\$	85,000	\$	10,372	\$ 95,372		

#### Business-type activities:

#### Certificates of Obligation:

Certificates of Obligation, Series 2013 - The certificates are payable from an ad valorem tax to be levied by the City and a pledge of the net revenues of the water and sewer system. The certificates bear interest at 3.97% and the City has the right, at its option, to redeem prior to maturity the certificates in whole on May 15, 2024, or any date thereafter. The certificates require semi-annual payments with the final payment due in November 2033.

Annual debt service requirements for certificates of obligation for business-type activities are as follows:

Year	Principal		l	Interest		Total	
2025		30,000		13,657		43,657	
2026		31,000		12,446		43,446	
2027		32,000		11,195		43,195	
2028-2032		182,000		35,254		217,254	
2033-2037		84,000		3,375		87,375	
Total	\$	359,000	\$	75,927	\$	434,927	

#### Financed purchases:

In October 2019, the City entered into a public property finance contract with Government Capital for the purchase of a vehicle. The agreement requires five annual payments of \$6,315, including interest at 4.929%, beginning October 2020, and terminating in October 2024. Additionally, in October 2023, the City entered into a public property finance contract with Government Capital for the purchase of a vehicle. The agreement calls for five annual installments of \$10,256, including interest at \$6.35%, commencing October 2024, and terminating in October 2029. Both agreements are secured by ad valorem taxes to be levied annually by the City.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

Annual debt service requirements for financed purchases for business-type activities are as follows:

Year	Р	rincipal	lı	nterest	Total		
2025		13,556		3,150		16,706	
2026		8,017		2,239		10,256	
2027		8,526		1,730		10,256	
2028		9,067		1,188		10,255	
2029		9,644		612		10,256	
Total	\$	48,810	\$	8,919	\$	57,729	

#### **NOTE 8: RETIREMENT PLAN**

#### A. Plan Description

The City of Newark, Texas participates as one of 936 plans in the defined benefit cash-balance plan administered by the Texas Municipal Retirement System (TMRS). TMRS is statewide public retirement plan created by the State of Texas and administered in accordance with the TMRS Act (Title 8, Subtitle G, Texas Government Code) as an agent multiple-employer retirement system for employees of Texas participating cities. The TMRS Act places the general administration and management of the System with a six-member, Governor-appointed Board of Trustees; however, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401 (a) of the Internal Revenue Code. TMRS issues a publicly available Annual Comprehensive Financial Report (ACFR) that can be obtained at www.tmrs.com.

All eligible employees of the City are required to participate in TMRS. The City joined TMRS in March 2014.

#### B. Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement, the Member's benefit is calculated based on the sum of the Member's contributions, with interest, and the city-financed monetary credits with interest. The retiring Member may select one of seven monthly benefit payments options. Members may also choose to receive a portion of their benefit as a lump sum distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the total Member contributions and interest.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

	Plan year	Plan year
	2023	2024
Employee deposit rate	5.00%	5.00%
Matching ratio (City to employee)	1 to 1	1 to 1
Years required for vesting	5	5
Service retirement eligibility		
(expressed as age/years of service)	60/5, 0/20	60/5, 0/20

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

At the December 31, 2023 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits
Inactive employees entitled to but not yet receiving benefits

Active employees

Total

Total

#### C. Contributions

Member contribution rates for employees in TMRS are either 5%, 6%, or 7% of the Member's total compensation, and the City matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the City. Under the state law governing TMRS, the contribution rate for each City is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The City's contribution rate is based on the liabilities created from the benefit plan options selected by the city and any changes in benefits or actual experience overtime.

Employees of the City of Newark, Texas were required to contribute 5% of their annual compensation during the fiscal year. The contribution rates for the City were 1.25% and 1.18% for the calendar years 2024 and 2023, respectively. The City's contributions to TMRS for the fiscal year ended September 30, 2024, were \$16,351, and were equal to the required contributions.

## D. Net Pension Liability or Assets

The City's Net Pension Asset (NPA) was measured as of December 31, 2023, and the Total Pension Liability (TPL) used to calculate the Net Pension Asset was determined by actuarial valuation as of that date.

#### Actuarial Assumptions:

The Total Pension Liability in the December 31, 2023, actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.50% per year Overall payroll growth 2.75% per year

Investment rate of return 6.75%, net of pension plan investment expense, including inflation

Salary increases are based on a service-related table. Mortality rates for active members are based on the PUB(10) mortality tables with 110% of the Public Safety table used for males and 100% of the General Employee table used for females. Mortality rates for healthy retirees and beneficiaries are based on the Gender-distinct 2019 Municipal Retirees of Texas mortality tables. Male rates are multiplied by 103% and female rates are multiplied by 105%. The rates for actives, healthy retirees and beneficiaries are projected on a fully generational basis by Scale MP-2021 to account for future mortality improvements. For disabled annuitants, the same mortality tables for healthy retirees are used with a 4-year set-forward for males and a 3-year set-forward for females. In addition, a 3.5% and 3.0% minimum mortality rate is applied, for males and females respectively, to reflect the impairment for younger members who become disabled. The rates are projected on a fully generational basis by the most recent Scale MP-2021 to account for future mortality improvements subject to the 3% floor.

The actuarial assumptions were developed primarily from the actuarial investigation of the experience of TMRS over the four-year period from December 31, 2018 to December 31, 2022. The assumptions were adopted in 2023 and first used in the December 31, 2023 actuarial valuation. The post-retirement mortality assumption for Annuity Purchase Rates (APRs) is based on the Mortality Experience Investigation Study covering 2009 through 2011 and dated December 31, 2013. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income in order to satisfy the short-term and long-term funding needs of TMRS.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

The long-term expected rate of return on pension plan investments was determined using a building- block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target allocation and best estimates of real rates of return for each major asset class in fiscal year 2024 are summarized in the following table:

	Long-Term Expected Real Rate
Target Allocation	of Return (Arithmetic)
35%	6.7%
6%	4.7%
20%	8.0%
12%	8.0%
12%	7.6%
5%	6.4%
10%	11.6%
100%	
	35% 6% 20% 12% 12% 5% 10%

#### Discount Rate:

The discount rate used to measure the Total Pension Liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that member and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the Total Pension Liability.

## Changes in Net Pension Asset:

The net pension liability (asset) is allocated to the governmental funds and the business-type funds based on actual wages paid during the fiscal year.

## Sensitivity of the net pension liability to changes in the discount rate:

The following presents the Net Pension Liability of the City, calculated using the discount rate of 6.75%, as well as what the city's Net Pension Liability would be if it were calculated using a discount rate that is 1-percentage-point lower (5.75%) or 1-percentage-point higher (7.75%) than the current rate:

	1% I	Decrease in			1% lı	ncrease in
	Disc	count Rate	Disc	ount Rate	Disc	ount Rate
	(	(5.75%)	(6.75%)		(7	7.75%)
City's Net Pension Asset	\$	49,307	\$	20,323	\$	4,175

## Pension Plan Fiduciary Net Position:

Detailed information about the pension plan's Fiduciary Net Position is available in the Schedule of Changes in Fiduciary Net Position, by Participating City. That report may be obtained at trms.com.

E. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

For the year ended September 30, 2024, the City recognized pension expense of \$29,694. This pension expense is allocated between the funds based on actual wages paid by each fund during the fiscal year.

At September 30, 2024, the city reported deferred outflows of resources and deferred inflows of resources related to pension from the following sources:

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

	Deferred Outflows of Resources		20.00		Net
Differences between projected and actual investment earnings Differences between expected and	\$	2,724	\$	-	\$ 2,724
actual economic experience  Difference in assumption changes		-		(3,240) (38)	(3,240) (38)

2026	1,626
2027	(1,826)
2028	(488)
Thereafter	-
	\$ (554)

## NOTE 9: POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

#### A. Benefit Plan Description

The City participates in the Texas Municipal Retirement System (TMRS) administered defined benefit group-term life insurance plan known as the Supplemental Death benefits Fund (SBDF). This is a voluntary program in which participating member cities may elect, by ordinance, to provide group-term life insurance coverage for their active members, including or not including retirees. The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on the employer's actual earnings, for the 12-month period preceding the month of death). The death benefit for retirees is considered another postemployment benefit (OPEB) and is a fixed amount of \$7,500. As the SDBF covers both active and retiree participants, with no segregation of assets, the SBDF is considered to be an unfunded OPEB plan (i.e., no assets are accumulated).

The member city contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year. The intent is not to pre-fund retiree term life insurance during employee's entire careers.

There are no assets accumulated in a trust that meets the criteria in paragraph 4 of GASB No. 75.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

At the December 31, 2023, valuation and measurement date, the following number of employees were covered by the SBDF benefit plan:

Inactive employees or beneficiaries currently receiving benefits
Inactive employees entitled to but not yet receiving benefits

Active employees

Total

1
7
8

## B. Total OPEB Liability

The City's Total OPEB Liability was measured as of December 31, 2023, and the Total OPEB Liability was determined by actuarial valuation as of that date.

## Actuarial Assumptions:

The Total OPEB Liability in the December 31, 2023, actuarial valuation was determined using the following actuarial assumptions:

Inflation 2.50%

Salary increases 3.60% to 11.85% including inflation

Discount rate\* 3.77% Retiree's share of benefit costs \$0

Administrative expenses All administrative expenses are paid through the Pension Trust and

are accounted for under reporting requirements under GASB

Statement NO. 68.

Mortality rates-service retirees 2019 Municipal Retirees of Texas Mortality Tables. Male rates are

multiplied by 103% and female rates are multiplied by 105%. The rates are projected on a fully generational basis by the most recent

Scale MP-2021 (with immediate convergence).

Mortality rates-disabled retirees 2019 Municipal Retirees of Texas Mortality Tables with a 4 year set-

forward for males and a 3 year set-forward for females. In addition, a 3.5% and 3% minimum mortality rate will be applied to reflect the impairment for younger members who become disabled for males and females, respectively. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence) to account for future mortality

improvements subject to the floor.

The actuarial assumptions used in the December 31, 2023, valuation were based on the results of an actuarial experience study for the period ending December 31, 2022.

<sup>\*</sup>The discount rate was based on the Fidelity Index's "20-year Municipal GO AA index" rate as of December 31, 2023.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

## Changes in Total OPEB Liability:

Balance at December 31, 2022	\$ 4,092
Changes for the year	
Service Cost	327
Interest On Total OPEB Liability	171
Changes of benefit terms	-
Differences between expected	
and actual results	167
Changes in assumptions or other inputs	336
Benefit Payments *	(82)
Net Changes	919
Balance at December 31, 2023	\$ 5,011

<sup>\*</sup>Due to SDBF being considered an unfunded OPEB plan under GASB No. 75, benefit payments are treated as being equal to employer's yearly contribution for retirees.

The OBEP liability is allocated to the governmental activities and the business-type activities based on actual wages paid during the fiscal year.

## Sensitivity of the OPEB liability to changes in the discount rate:

The following presents the Total OPEB liability of the City, calculated using the discount rate of 3.77%, as well as what the City's Total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (2.77%) or 1-percentage-point higher (4.77%) than the current rate:

	1% D	ecrease in			1% I	ncrease in
	Disc	ount Rate	Disc	ount Rate	Disc	ount Rate
	(2.77%)		(3.77%)		(4	4.77%)
Total OPEB Liability	\$	6,220	\$	5,011	\$	4,072

C. OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB:

For the year ended September 30, 2024, the City recognized OPEB expense of \$336.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

At September 30, 2024, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following Sources:

	Def	ferred	D	eferred	
	Outf	lows of	Inf	lows of	
	Res	ources	Res	sources	Net
Differences between expected and					
actual economic experience	\$	-	\$	(899)	\$ (899)

Contributions subsequent to the					
measurement date		308		-	
Total	\$	308	\$	(1,620)	

Deferred outflows of resources of \$308 related to OPEB contributions subsequent to the measurement date will be recognized as a reduction of the OPEB liability for the year ending September 30, 2024.

Other amounts reported as deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year Ending December 31,	
2024	\$ (162)
2025	(162)
2026	(162)
2027	(187)
2028	(184)
Thereafter	 (763)
	\$ (1,620)

## **NOTE 10: RISK MANAGEMENT**

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City is a member of the Texas Municipal League Intergovernmental Risk Pool ("TMLIRP") which is a public entity insurance risk pool. Management believes coverage presently purchased from TMLIRP is sufficient to preclude significant uninsured losses to the City.

#### **NOTE 11: SUBSEQUENT EVENTS:**

The City has evaluated all events and transactions that occurred after September 30, 2024, through the date the financial statement was available to be issued. In October 2024, the City entered into a \$38,235 note payable agreement with Government Capital Corporation for the purchase of a vehicle. The note carries an interest rate of 5.98% and is payable in five (5) annual installments of \$9,231.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED SEPTEMBER 30, 2024

## **Budget and Budgetary Accounting**

The City Council adopts an annual budget for the general fund. The general fund budget is legally adopted on a modified accrual basis.

The following procedures are followed in establishing the budgetary data reflected in the Basic Financial Statements:

Prior to the beginning of the fiscal year, the City prepares a budget for the next succeeding fiscal year. The operating budget includes proposed expenditures and the means of financing them. A meeting of the City Council is then called for the purpose of adopting the proposed budget. At least ten days public notice of the meeting must have been given. Prior to the start of the fiscal year, the budget is legally enacted through passage of a resolution by the City Council.

Once a budget is approved, it can only be amended by approval of a majority of the members of City Council. As required by law, such amendments are made before the fact, are reflected in the official minutes of City Council and are not made after fiscal year end. All budget appropriations lapse at year end.

#### **Budget Amendments**

The budget was amended once during the year ended September 30, 2024.

#### NOTES TO SCHEDULE OF CONTRIBUTIONS

#### Valuation Date:

Actuarially determined contribution rates are calculated as of Notes

December 31 and become effective in January 13 months later.

#### Methods and Assumptions Used to Determine Contribution Rates:

**Actuarial Cost Method Entry Age Normal** 

**Amortization Method** Level Percentage of Payroll, Closed Remaining Amortization Period 12 Years (lonest amortization ladder)

Asset Valuation Method 10 Year smoothed market; 12% soft corridor

Inflation 2.50%

3.60% to 11.85% including inflation Salary Increases

Investment Rate of Return 6.75%

Experience-based table of rates that vary by age. Last updated for the Retirement Age

> 2023 valuation pursuant to an experience study of the period ending Post-retirement: 2019 Municipal Retirees of Texas Mortality Tables. Male rates are multiplied by 103% and female rates are multiplied by

105%. The rates are projected on a fully generational basis by the most recent Scale MP-2021 (with immediate convergence).

Pre-retirement: PUB(10) mortality tables, with the 110% of the Public Safety table used for males and the 100% of the General Employee table used for females. The rates are projected on a fully generational

basis by the most recent Scale MP-2021 (with immediate

Other Information:

Mortality

Increased city matching ratio from 1 - 1 to 2 - 1. Notes

#### **NOTES TO SCHEDULE:**

Changes of assumptions.

Changes of assumptions and other inputs reflect the change in the municipal bond rate index, which is used as a basis for the discount rate. The actuarial assumptions used in the December 31, 2023 valuation were based on the results of an actuarial experience study for the period ending December 31, 2022.

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB statement No. 75 to pay related benefits.

# Other Supplementary Information This section includes financial information and disclosures not required by the Governmental Accounting Standards Board and not considered a part of the basic financial statements. It may, however, include information which is required by other entities.

Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the City Council City of Newark, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Newark, Texas, as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the City of Newark, Texas' basic financial statements, and have issued our report thereon dated August 21, 2025.

## Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City of Newark, Texas' internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Newark, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of the City of Newark, Texas' internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### **Report on Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City of Newark, Texas' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

MWH Group, P.C.
