

Residential Plan Review and Permitting Procedures

Permit documents and fees will be submitted to the city. Submittal documents should be complete to expedite plan review and permit issuance.

New and Remodel/Addition Residential Permits Requirements

1. Permit Application
2. (2) Plot Plans to include legal description (lot, block, subdivision) and lot dimensions.
3. (2) Energy reports – Energy Code adopted by city (2015)
4. (2) Stamped engineered foundation letters.
5. (2) Stamped engineered foundation plans
6. (2) Sets of house plans.
7. (2) Sets of engineered wind bracing plans.

Submit complete permit package to the city either electronically, or in person for plan review.

Plan Review Process

1. Sent to Plan Review
2. Verifications of all required documents and specific to the legal description to the lot. Reviews plat versus plot plan for building setbacks, lot coverage, and masonry requirements according to zoning and ordinance requirements.
3. Review for plan for building code violations
4. Review energy code compliance report for verification of compliance with the IECC code edition adopted by the city.
5. Applicant will be contacted if any information is missing or if revisions are needed. If revisions are required, the application will be placed on hold until the corrected documents are received.
6. Approval of permit. City staff will notify you that permit has been approved.
7. Once permit fees have been received, the permit will be issued and released.

Residential Permit Submittal Requirements

CONSTRUCTION DOCUMENT SUBMITTALS: Two (2) copies of complete set of construction documents are required for plan review. Construction documents must be submitted along with a complete permit application.

Site plans (plot plans) drawn to a scale of 1" = 20'. Site plans must show lot dimensions, footprint of building and distance from building to property lines, platted building lines, driveways, all easements, and the address and legal description of lot.

Floor plans drawn to a scale of ¼" = 1'. Floor plans must show all dimensions, room names, size, and type of windows and doors, cabinets and fixtures, and ceiling heights.

Exterior elevation plans drawn to a scale of ¼" = 1'. Exterior elevations plans must show exterior materials, windows and doors, roof slopes, chimneys, and overhangs.

Structural plans, where required, drawn to a scale of ¼" = 1'. Structural plans must show second floor framing, ceiling framing, roof framing, headers, and beams.

Foundation Plans: (must be sealed by a State of Texas Licensed Engineer or Foundation Detail (Refer to IRC for additional requirements) drawn to scale ¼" = 1'. Foundation plans must show all dimensions, location and spacing beams, location of post-tensioning cables (if applicable), location and size of rebar (if applicable), concrete specifications, slab thickness, beam sizes and details, post tension cable details (if applicable), other notes and requirements by the Engineer, and the address and legal description of the lot.

Engineer's foundation design letters. Letters must include a statement that the foundation has been designed specifically for soil conditions of listed lot and that design is in accordance with the building code, must be sealed by the State of Texas Licensed Engineer that designed the foundation plans, and must show the address and legal description of the lot.

Engineered Wind Bracing Plans – comply with current adopted City Code

Masonry on Wood details, if applicable. Masonry on wood details must be sealed by the State of Texas Licensed Engineer or built to the International Residential Code details.

Electrical Plans (may be combined with floor plan) drawn to scale ¼" = 1'. Electrical plans must show location of receptacles and other outlets, exhaust fans, smoke detectors, light fixtures, service equipment and panels.

Plumbing Plans (may be combined with floor plan) drawn to scale ¼" = 1'. Plumbing plans must show location of fixtures, water heaters, and gas outlets.

Energy Compliance Report (www.energycodes.gov) (IC3reports: <http://ic3tamu.edu>)

NOTE: a Form Survey sealed by the State of Texas Licensed Surveyor will be required to be on sight for the Plumbing Rough Inspection.

Application becomes null and void if all information is not provided within 30 days. If no inspection is made within 90 days of issuance the permit will expire.

A permit becomes null and void if work or construction authorized is not commenced within 180 days, or if construction or work is suspended or abandoned for a period of 180 days at any time after work is commenced. All permits require final inspection.

I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any other state or local law regulating construction or the performance of construction.
