

# FNS GAZETTE

---

Issue No. 3 | April 2025

---

Fridays with ONSC bring both classes together and often use active learning!

---

## Dates to know:

Apr 13- Pink Moon 🌙  
Apr 18- Closed  
Apr 22- Earth Day!  
May 14<sup>th</sup> -Last day @Lake Fay  
May 30<sup>th</sup> -Last day of school!

## Happy Birthday!!

Apr 4<sup>th</sup> - Jameson  
Apr 6<sup>th</sup> - Sonny  
Apr 17<sup>th</sup> - Lyle  
Apr 24<sup>th</sup> - Remington

## Let them...

One of our core principles is to protect childhood. We allow children to engage fully in play and nurture their creativity and curiosity. A supportive “yes” environment with ample recess and mixed ages fosters imaginative growth and social-emotional skill development through modeling and experimentation.

---

## Ask a student:

*What is the best thing about Spring?*

Roslyn- "There is just so much green!"

Corinne- "Its not too hot and not too cold! And I like the white dandelions!"

Pippen- "Butterflies and flowers blooming! Trees with green leaves."

Nora- "Playing outside and flowers and trees blooming . I like seeing dragonflies!"

Springtime at the farm!

## What we're reading:

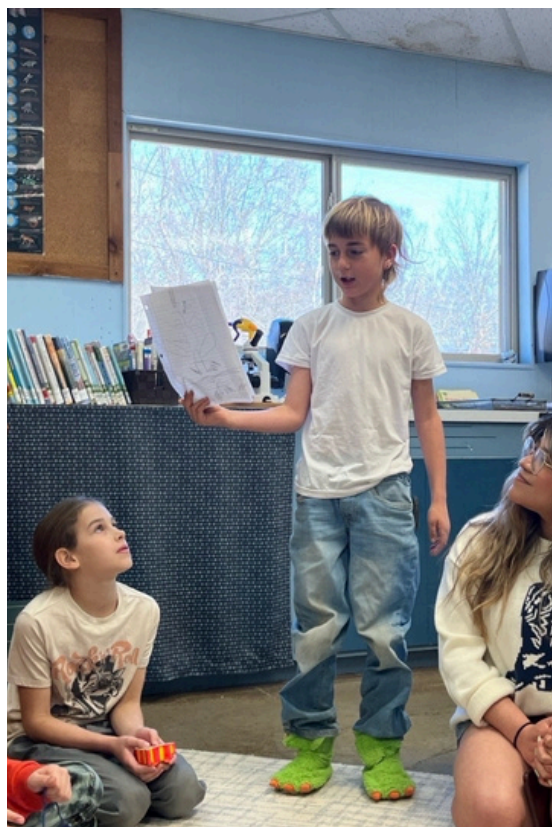

Kindergarten has been cruising through Junie B. Jones books and is also reading from the Judy Moody series.

The Grades classroom has been reading 'The Wild Robot' together during read-aloud.

## Community Meetings and Work Share

Community meetings foster classroom unity and give students a voice. Work Share on Fridays promotes a positive learning environment, enhances social-emotional development, and boosts student engagement and motivation.

## PARENT VOLUNTEER OPPORTUNITIES

**PACKING AND MOVING:** We are moving back to our home location and have movers coming mid May. We would love help packing our materials in boxes if you have time during school hours. If you have boxes or tubs to spare, we'd happily take them off your hands!

**DECK** - we are building a large deck for our circle tent and are seeking help transporting materials and building.

**PLAY SPACE UPDATE-** Looking for help removing invasive species, planting natives and building paths around our play space at our home location.
