Case Nos.: 2023-54547, 24-004162PL

HEIDI MARJAANA LAHTENMAA, D.O.,
Respondent.

RESPONDENT'S EXCEPTIONS TO RECOMMENDED ORDER

I, Dr. Heidi Lahteenmaa, pro se, file these exceptions to the outrageously delayed Recommended Order dated October 14, 2025, by ALJ Robert S. Cohen—a blatant act of corruption issued a staggering four days past the October 10, 2025, deadline (per Rule 28-106.216(1))—a shameless attempt to bury my whistleblower evidence under a mountain of deceit.

INTRODUCTION:

The Biden FBI inflicted unbearable suffering, unleashing an audacious, relentless campaign of psychological and physical torment for nearly three years, driving me to the brink of death with calculated cruelty and by gradually escalating their tactics to break me, either orchestrating this torment or callously permitting organized criminals to execute it directly before their eyes.

They first orchestrated a brazen takeover of all my devices, remotely controlling them with impunity. The Biden FBI, in collusion with LeChateau Royal Condo and Palm Beach Police (PBP), rigged my apartment, during my absence, with illegal cyberware and unauthorized Xfinity cables, bulk lines, and splitters—all without a shred of legal authorization. Uber blocks were deployed to trap me, as I had no car. I faced relentless cyberattacks. Even attempts to flee on foot were thwarted, with agents following me everywhere, from hotels to

my neighbor's home. Once they caged me, they ensured I knew I was under suffocating 24/7 intense surveillance.

After my imprisonment, my air conditioning was sabotaged, leaving me trapped for weeks to months in an 82°F "oven" during Florida's scorching summer. This was followed by drainage of hundreds of gallons of sewage into my apartment, through illegally installed Xfinity cables hidden within the wall partition, and placement of stink bombs in my bedroom. The air was saturated with toxic sewage gas amid relentless 120-decibel drilling, occurring even on non-maintenance days, primarily above my roof, which unleashed cockroaches into my living space. As a remote healthcare worker, I was forced to mask my agony during patient sessions, enduring this engineered environmental assault while projecting normalcy onscreen. This constitutes attempted murder by environmental means (18 U.S.C. § 1110) and violates the Torture Victim Protection Act (TVPA), with no statute of limitations under the UN Convention Against Torture (CAT, Article 1).

Uber Eats was then cut off, and through hacked apps, I was ordered to remain indoors, enforcing false imprisonment (FL § 787.02) and starvation under duress (18 U.S.C. § 2340; UN CAT), with my responses monitored as if I were a tortured prisoner. I subsisted on yogurt and stale bread. At my lowest moments, rather than offering support, whom I thought was the Biden FBI, through hacked apps, urged me to jump from my 8th-story balcony and threatened my death (FL § 782.07; CAT Article 1), pushing me to the brink. I meticulously documented their atrocities in ten diaries, soon to be public. Through these hacked apps, they instructed me to cover all windows for over a month, forcing me to live in a pitch-black, swelteringly unbearable, foul-smelling dungeon filled with toxins and cockroaches, amid near-constant drilling, with no social support, chronic low hemoglobin around 9 sapping my strength, surrounded only by tormentors ensuring I could not escape.

Unsated, they sought my death and resorted to CIA torture tactics, contacting and recruiting my professional network of psychiatrists and neurosurgeon Dr. Robert Dahlin, DO, from Duluth, Minnesota, to torment me and drive me to suicide. They enlisted, as is characteristic of the FBI/CIA per internet sources, an entire professional team to relentlessly torture me—a strategy so critical to their sinister agenda that it defies comprehension. Their Behavioral Analysis Unit (BAU) recognized that transforming one's positive social support into a weapon of psychological torment ranks among the most devastating forms of torture known to humanity.

Research underscores this brutality: Zimbardo's Stanford Prison Study (1971) revealed how social roles can turn allies into aggressors, underscoring how betrayal by "allies" in a controlled environment destroys social bonds and self-worth; Basoglu's studies on torture survivors (2009) from Vietnam War POWs and other conflicts linked repetitive coercive tasks and social isolation—exacerbated by turning family or comrades against the victim—to severe mental collapse. The U.S. Senate Report on CIA Torture (2014) exposed how "enhanced interrogation" techniques, including simulated betrayals (e.g., threats to family, false confessions from "trusted" sources), induced profound helplessness and dissociation in detainees, with survivors exhibiting chronic anxiety and relational distrust, validating this

as a core element of psychological devastation. Nazi psychological manipulation tactics during WWII, as analyzed in post-war studies, similarly weaponized social betrayal—e.g., forcing prisoners to inform on comrades—to break resistance, resulting in widespread moral injury and social withdrawal among survivors, a pattern echoed in modern torture research. Studies like these, well known to the BAU team, were exploited by the Biden FBI to escalate their torment in an attempt to break me.

The Biden FBI ruthlessly commanded my friends and colleagues to call, subjecting me to relentless belittling and gaslighting with statements like, "Heidi, are you okay?" "You're not hacked; you're delusional; no one is keeping you there." "Heidi, you need help. You are psychotic." My colleagues flagrantly abandoned every ethical guideline instilled during residency, validating Milgram's studies with alarming accuracy, especially the revered principle of prioritizing evidence. Some, like neurosurgeon Dr. Robert Dahlin, appeared positively exhilarated and eager to participate. Perhaps this stemmed from his fervent devotion as a Democrat and his father's role as a federal agent within undisclosed government agencies, a connection tied to the additional perjury he committed on August 5, 2025, which also constituted witness tampering (18 U.S.C. § 1512) and a grotesque CIA-style proxy torture.

On April 26, 2024, I sent certified letters to Washington, D.C., addressed to Senator Ted Cruz, Attorney General Garland, Inspector General Michael Horowitz, Director Haines, Fonzzone, Haugh, Monheim, Secretary Austin, and CIA Director William Burns, but received no assistance. Instead, someone upped the ante. Needing a breast lump biopsy, I called the Biden FBI for help, after my health insurance was canceled by someone. Instead of helping, they sent the PBP, again ignoring all my evidence, and Baker Acted me. This unlawful and inhumane inpatient stay resulted in a \$50,000 bill. After discharge, my cash-pay appointments for a breast lump biopsy were canceled, likely by the Biden FBI, constituting a deliberate denial of medical care that devastated my profession and health.

I fled the country in January 2025, yet even abroad, they relentlessly bombarded me with their legal career threats. It wasn't until Policia Judiciaria and Interpol in Portugal intervened in April 2025 that I was able to receive hospital care for anemia and passing out from it, risking organ failure due to hypovolemic shock and death. They kindly advised filing with DIAP in Lisbon to halt this inhumane, life-threatening persecution. My experience was outright torture—far from exaggeration, a severe understatement given the Herculean task of summarizing over two years of government torment with a plan to kill a whistleblower who stumbled upon Biden's sloppy telemedicine investigation.

Now, with my medical license revoked on October 14, 2025 (an astonishing four days past the deadline, amidst a grotesquely flawed hearing), the Florida Osteopathic Medicine Board persists in stonewalling me with shameless defiance, blatantly ignoring my requests regarding the second active FL license, likely exploited for investigative purposes through these inhumane and sadistic means, as if this approach were their sole recourse. Yet they deliberately chose and relentlessly pursued this path without deviation, aided by morally bankrupt and spineless accomplices such as Dr. Dahlin, Mr. Morris, Judge Cohen, Dr.

Treese, and others. The utter lack of reconsideration, despite my numerous heartfelt pleas, solidifies the intent as a malicious, brazen, soul-crushing campaign by the Biden FBI, intent on annihilating me through suicide, fabricated accidents or health collapse, and failing that, to obliterate my career, finances, and credibility through legal sabotage, as evidenced by their sham lawsuit, as retribution for my accidental unmasking of their sloppy Teladoc investigation and myriad legal violations.

This was nothing short of a diabolical, sadistic gag operation, masquerading under the guise of a sealed telemedicine investigation—outrageously ironic given my desperate pleas for a gag order, a request that this fiasco hilariously undermines. The involvement of organized crime elements provides no justification for orchestrating such a sinister, audacious, meticulously planned, and systematically executed campaign of torture and attempted murder by state actors. Rather than shielding me from criminal gangs, the Biden FBI callously delivered me into the clutches of the Miami mafia and other nefarious groups, to extract information, exploiting my social support as tools to amplify my suffering with ruthless intent, all to conceal their colossal, now internationally exposed, failures in managing healthcare investigations.

The Biden FBI, the Florida Department of Health (FL DOH), and the Board of Osteopathic Medicine have utterly forfeited their souls and abandoned their sacred mission if these vile tools constitute their only arsenal and/or is their preferred method. By savagely attacking those they are sworn to protect, they have shamelessly unveiled their true colors: anything goes under the flimsy pretext of a sealed investigation, including the outrageous imprisonment of a physician for three years, relentless torture and torment, and the total destruction of life and career with death as a perverse bonus. This is the State of Florida's appalling approach to healthcare investigations, a disgrace that will be thrust into the spotlight at the upcoming conferences. Most shockingly, despite an overwhelming body of evidence and their solemn obligation to consider it, the FL DOH and Osteopathic Medical Board persist in their campaign of torture with unbelievable arrogance. I hold each of them personally accountable for eagerly participating in one of the most egregious abuses of authority imaginable, with profound legal, ethical, and societal implications now unfolding on the international stage.

The Biden FBI, FL DOH and Osteopathic Medical Board stand as a colossal embarrassment, and I can only hope that the fallout and shame from this will catalyze transformative reform in how the U.S. government treats whistleblowers and conducts healthcare investigations. Borrowing the wise words from the PJ/Interpol agent in Lisbon, Portugal, "You would never have been Baker Acted in Portugal"—a lesson the U.S. government must heed when mimicking third-world tactics, locking up the outspoken, threatening them, and throwing away the key. I am notifying President Trump, Rep. Anna Paulina Luna, Sen. Charles Grassley, Policia Judiciaria, Interpol, Supo, KRP, and the Data Ombudsman, and will raise awareness at the Helsinki Cyber Conference on November 4-5, distributing flyers and rallying support to condemn these barbaric practices. I trust President Trump's team will ensure justice prevails, holding these perpetrators accountable.

EXCEPTIONS:

1. Exception to Finding of Fact # [e.g., 47-49]: The ALJ committed an egregious error in branding my hacking claims “delusional,” callously dismissing irrefutable forensic evidence provided to them, as well as the opportunity to review a vast collection of additional evidence stored on approximately four laptops, five hard drives, 15 cell phones, USBs, alongside roughly 100,000 photos and over 10 diaries that resoundingly expose Teladoc fraud and FBI operations (possibly linked to Arctic Frost) with their accomplices. The evidence provided, also exposing warrantless intrusions (e.g., splitters, second forced phone lines, coercion, apartment rigging, and other tactics), clearly demonstrates to anyone reviewing it that all my devices were hacked, yet Cohen’s bad-faith rejection tramples the Fourth Amendment with shocking impunity.
2. Exception to Finding of Fact # [e.g., 4-13, 50e]: The ALJ outrageously erred in accepting Dr. Dahlin’s perjured testimony on August 5, 2025, a vile act coerced by the Biden FBI as part of a sinister CIA-style proxy torture scheme. His 17-year friendship with me was cynically exploited to gaslight me, a fact Cohen shockingly ignored, violating 18 U.S.C. § 1512 (witness tampering) in a display of judicial complicity.
3. Exception to Finding of Fact # [e.g., 50f]: The ALJ’s scandalous refusal to mandate a forensic evaluation of my data and devices brimming with evidence of warrantless intrusions and FBI torture—constitutes a flagrant due process violation, a cowardly cover-up to conceal the truth.
4. Exception to Finding of Fact # [e.g., 50a]: The ALJ audaciously dismissed my credible fears of mafia/organized crime and Teladoc intimidation, validated by Interpol’s intervention, as baseless, a shocking refusal to investigate state-sponsored collusion that violates my right to a fair hearing under Florida Statutes § 120.57.
5. Exception to Finding of Fact # [e.g., 35-40]: The ALJ’s endorsement of the unlawful Baker Act detention on August 12, 2024, as evidence of psychosis is a egregious miscarriage of justice. This state-sponsored false imprisonment was orchestrated through coercion by the Biden FBI, following the deliberate cancellation of my health insurance and sabotage of my critical biopsy needs. These actions constitute a blatant abuse of process, violating my due process rights under the 14th Amendment and amounting to a civil rights violation under 42 U.S.C. § 1983. The coordinated effort by state and federal agencies to detain me in a psychiatric facility, without clinical justification, was a conspiracy to violate my constitutional rights, designed to conceal their misconduct. Furthermore, by obstructing vital medical care—allowing possible cancer to spread—these actions represent a deliberate act of attempted murder, endangering my life through state-orchestrated persecution.

6. Exception to Conclusion of Law # [e.g., 65-66]: The revocation is an egregious travesty of due process; the ALJ shockingly overlooked 3+ years of FBI torture, including the illegal Baker Act (Aug 12, 2024), blackmail to PRN, colleague coercion and vicious retaliation against my Teladoc whistleblowing protected under U.S. 5 U.S.C. § 2302 and international ICCPR Article 19.

On October 3, 2025, Rep. Anna Paulina Luna's office contacted me, confirming their investigation into Biden FBI actions, taking my evidence and pleas seriously—contrasting starkly with ALJ Cohen, a figure who is undeserving of the title “judge”.

7. Exception to Penalty Recommendation: Restoration of my license is an absolute necessity; the relentless, ongoing torture detailed below, coupled with the Osteopathic Medical Board's shameless stonewalling (ignoring requests), tolls all statutes with justified outrage. Late notice (if post-October 14) further demands tolling in this travesty of justice.
8. Exception to Finding of Fact # [e.g., 71]: Judge Cohen's utterly audacious and unhinged assertion that I am “possessed by demons” and must “rid myself of demons” (Finding 71)—a preposterous, blasphemous spiritual assault masquerading as judicial commentary—represents a grotesque, intolerable overreach far beyond his authority, plunging the proceedings into a realm of sheer absurdity.

This reckless declaration, cloaked as a judicial finding, ignores the gravity of accusing me of psychosis, where such language suggests a need for exorcism over medical treatment, showcasing a deplorable lack of insight and judgment. His failure to consider the diverse audience—spanning international agencies and varied cultural contexts—further exposes his ineptitude, risking catastrophic misinterpretation and harm where faith dictates severe consequences for such claims.

- 8.1 This public defamation, brazenly implying a need for an exorcist, is an uninvited, horrifying evaluation displayed on a court site, a scandalous outrage given my forwarding to Catholic Portugal's Policia Judiciaria (PJ) and Interpol—precisely the heroic agencies that saved my life when the FL DOH relentlessly sought to destroy my career and life. Judge Cohen audaciously dismisses their impeccable data and arrogantly claiming these esteemed guardians are too dim-witted to discern the truth about the Biden FBI's sinister operations, insultingly suggesting they cannot differentiate between someone needing an exorcist versus merely ridding themselves of the satanic machinations of the Biden FBI. The only exorcist I require, is one powerful enough to purge the demonic influences of the Biden FBI, Judge Cohen, Mr. Morris, Dr. Treese, Dr. Dahlin the FL DOH, the Osteopathic Medical Board whose sinister activities have plagued my existence with unrelenting malice.
- 8.2: The audacity echoes the Salem witch trials, where frenzied, bloodthirsty men smeared victims like me with baseless accusations of invisible specters, ignoring

facts, staging travesties of justice with trials devoid of witnesses, sabotaged or denied lawyers, and blackmailed victims to the pyre using forged confessions—mirroring my case where my license was wielded as a vengeful weapon—a parallel already documented on my website (thepocw.com).

- 8.3: This declaration glaringly exposes the alarming absence of insight, judgment, or blatant corrupt intent underlying Judge Cohen’s ruling. Should he truly have deemed me psychotic, he might pause to reflect on the reckless cruelty of branding me “possessed by demons”—a torment that raises the question of how many genuinely schizophrenic or psychotic patients he has scarred across his career.

However, I contend he is simply corrupt, too feeble and compromised to uphold justice, instead aligning with a smear campaign that exploits any tool, including this public accusation of possession, to sabotage my work and career. This statement carries far-reaching consequences, particularly in the field of psychiatry and our multicultural, international work environment.

I will report this to Rep. Anna Paulina Luna’s team, already investigating Biden FBI failures related to my Teladoc whistleblowing, and I earnestly seek justice, hoping that proven misconduct by Judge Cohen, the Biden FBI, Teladoc, and organized criminals leads to appropriate disciplinary action, including potential license revocation or imprisonment as determined by due process.

RELIEF SOUGHT:

Based on the foregoing exceptions, I respectfully request that the Florida Board of Osteopathic Medicine, in issuing its Final Order, take the following actions: (1) dismiss the Administrative Complaint for failure to meet the clear and convincing evidence standard under § 120.57(1)(j), FS, and for egregious due process violations under the Fourteenth Amendment; (2) promptly restore my medical license, accompanied by full back pay, rectification of license anomalies, and the expungement of all related defamatory records; (3) ensure DOH compliance with whistleblower protections under § 112.3187, FS, including injunctive relief to halt further retaliation; (4) impose severe sanctions against the DOH under § 120.69, FS, for their outrageous procedural abuses; (5) urgently refer the matter to the DOJ Inspector General for a comprehensive investigation into the Teladoc probe and the shocking federal-state collusion; (6) recommend a referral to the Florida Judicial Qualifications Commission and DOJ Inspector General for investigation into Judge Cohen's misconduct; and (7) grant such additional relief as deemed just and proper, including substantial punitive damages against the opposing party and protection from liability for their associated legal expenses, to fully address this travesty and ensure I am not burdened with their costs, as a pro se litigant, like they threatened.

CONCLUSION:

Pending FOIAs will unmask the Biden FBI's audacious misconduct with irrefutable clarity. I will expose this nightmarish ordeal at the Cyber Security Nordic (Nov 4-5, 2025), extending heartfelt invitations to Keskusrikospoliisi (KRP) and Suojelupoliisi (Supo) to witness the truth firsthand. My current psychiatrist, prescribing stimulants, has zero concerns about delusions—his note, soon to be posted publicly, obliterates Cohen's baseless claims. The Osteopathic Medical Board's obstinate refusal to address my requests compounds this travesty. I will CC this document to President Trump, Policia Judiciaria, Interpol, Supo, KRP, Data Ombudsman, Rep. Luna's and Sen. Grassley's teams, demanding an exhaustive investigation and the immediate restoration of my license.
